Agenda

Global Product Data Interoperability Summit | 2015

- **Anark Introduction**
- **3D Model-Based Enterprise**
 - Definition
 - Traditional Barriers
 - How did the DoD move past Level 2?
- **Uniting PLM and ERP data for generating 3D MBE documents**
- **Successful 3D MBE deployments**
- **3D MBE ROI**

Anark Corporation Overview

Global Product Data Interoperability Summit | 2015

- Leading provider of advanced MBE and Visual Communication software and solutions to industry leaders since 2000.
- Empowering 3D Model Based Enterprise revolution within Aerospace, Defense, Automotive, Energy, Industrial, Electronics, Medical Equipment, and Consumer Products Sectors
- Growing company, with world-wide network of technology, integration, and channel partners
- Anark Corporation HQ in Boulder, Colorado

Model-Based Enterprise

Global Product Data Interoperability Summit | 2015

What?

- Fully integrated and collaborative environment founded on detailed 3D product definition shared across the extended enterprise

How?

- A single digital master data set containing the 3D model and all needed product data in a managed secure and controlled environment that supports maximum data reuse for all aspects of acquisition, maintenance and operations.

Why?

- Rapid, seamless, and affordable deployment of products from concept to disposal.

Model-Based Enterprise

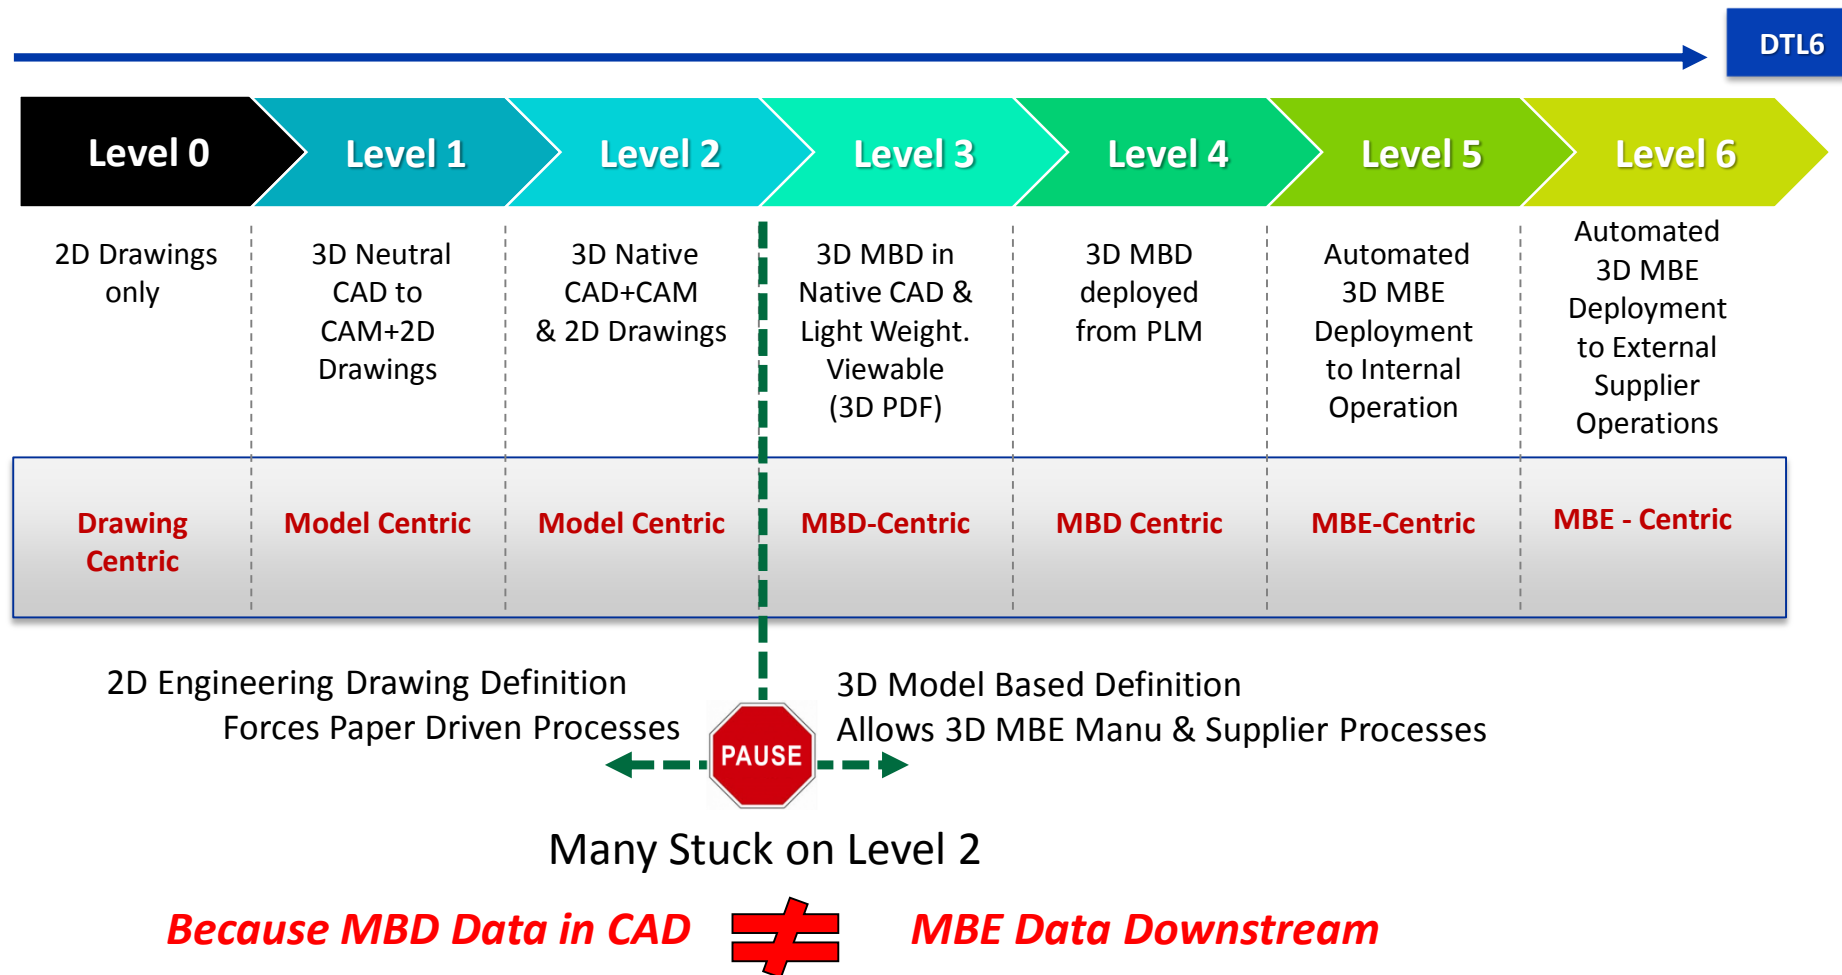

Global Product Data Interoperability Summit | 2015

MBD/MBE Capability Levels

Global Product Data Interoperability Summit | 2015

How to Drive through Level 6 (DTL6)

DTL6

What prevents moving past Level 2?

Global Product Data Interoperability Summit | 2015

- **Cultural Resistance/Inertia to moving away from 2D Drawings**
- **Inability to move CAD Native to neutral formats with 100% fidelity**
- **Semantic Engineering Design Intent must be accurately conveyed**
MBE Viewing Technology Costly and Inflexible
 - **CAD Viewers are proprietary, hard-coded, model-spinners with minimal MBE capabilities**
 - **Suppliers were adverse to buying, installing and managing multiple CAD viewing clients**
- **Full Product Definition is more than CAD MBD data**
 - **Required Data may also reside in PLM, ERP, MES, CRM, ...**

How did the DoD move past Level 2?

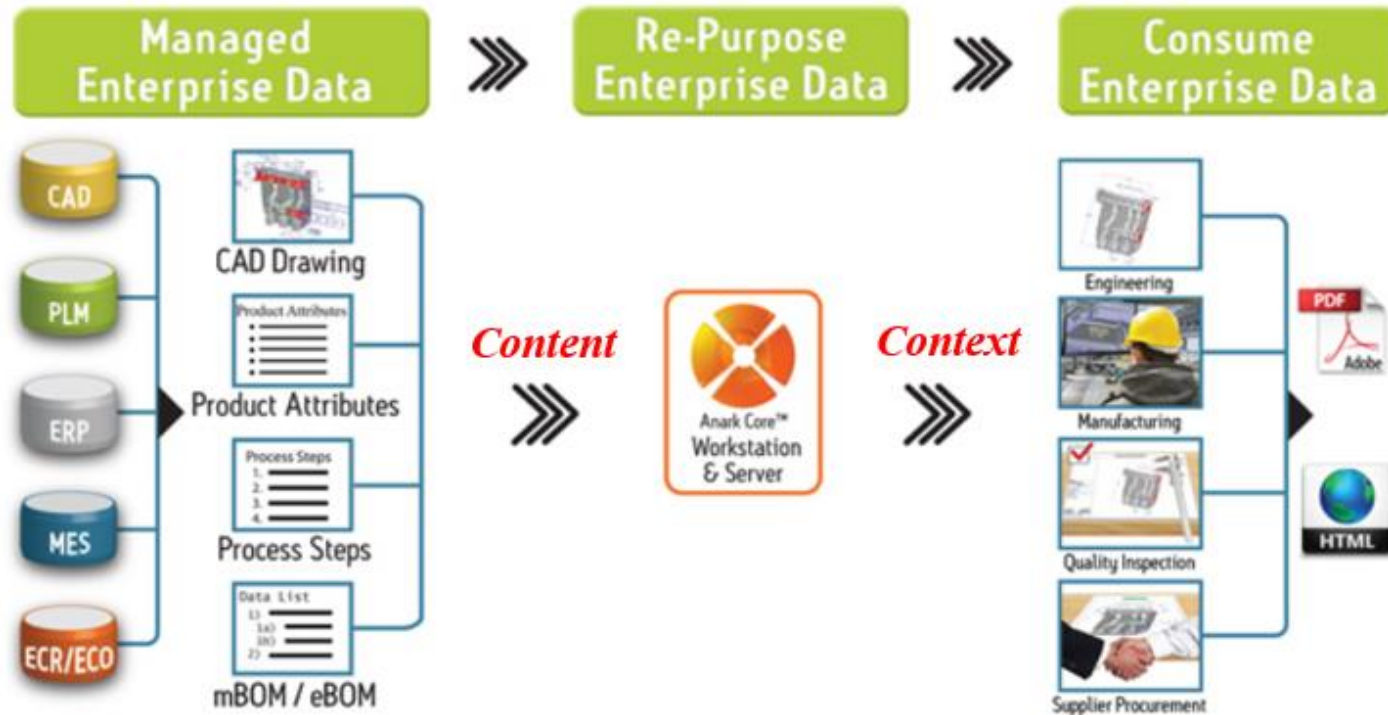

Global Product Data Interoperability Summit | 2015

- **Native CAD APIs for reliable access to 3D MBD data**
- **3rd party validation of all 3D Model Translation**
- **Leverage Open Formats for 3D MBE documents**
 - **3D PDF - ISO standard with robust 3D MBD support**
 - **HTML5 + WebGL**
- **Server-based automated publishing and regeneration**
 - **SOA/Webservices**
 - **Data Connectors for pushing and pulling data from multiple systems**
- **MIL-STD 31000 rev A – ratified in Dec 2013**
 - **Mandates all new system acquisitions include 3D Tech Data Packages**

3D MBE Successful Deployments

Global Product Data Interoperability Summit | 2015

- US Army – ARDEC –TDPs
- US Navy – NAVAIR - TDPs
- Boeing – A10 Wing Replacement Program – Parts Provisioning Reports
- Hill Air Force Base – PPRs, TDPs, Model-based Work Instructions
- Honeywell – TDP, MBWI
- General Electric - TDPs
- Raytheon – TDPs, Quality Inspection Plans
- Lockheed Martin - TDPs
- General Dynamics - TDPs
- Navistar - TDPs
- CSR-Sifang - MBWI
- TE Connectivity - TDPs

Global Product Data Interoperability Summit | 2015

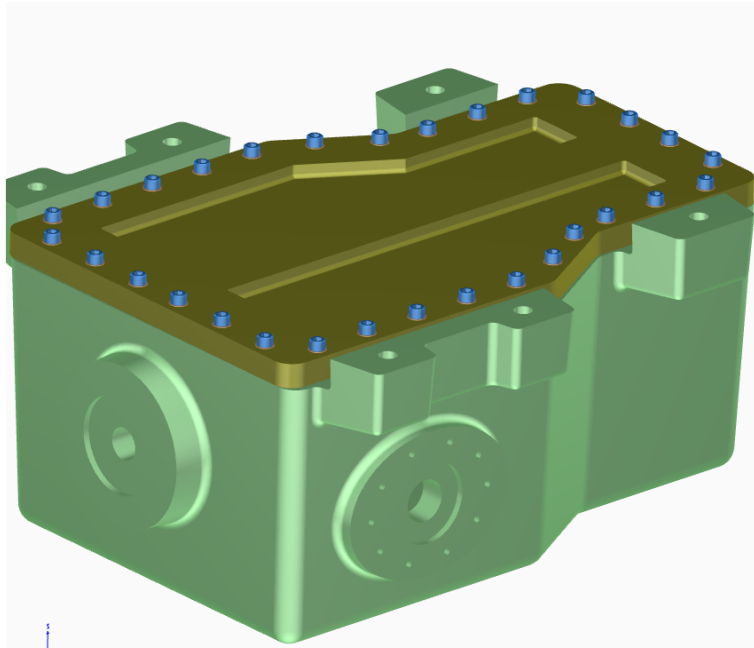

Technical Data Package

- 3D PDF from native Creo 3D MBD and Windchill Attributes
 - Title Block, Rev History, BOM, Mfg Notes, Approvals
- Validation Report
- BOM
- Validated STEP File

Customer Samples - Honeywell

Unleash the Model Based Enterprise

Appendix – Additional Slides

Global Product Data Interoperability Summit | 2015

Anark Core Product Line

Global Product Data Interoperability Summit | 2015

Anark Core Server—enterprise MBE server software with SOA for recipe-based transformation, publishing, and collaboration. Advanced MBD CAD integrations to NX, Creo, CATIA, and SolidWorks.

Anark Core Workstation—MBE desktop software for recipe creation for server-side automation and SME authoring for manual document generation. Advanced MBD CAD integrations to NX, Creo, CATIA, and SolidWorks.

Anark Core SDK—Integration software development kit for connecting Anark Core software to other enterprise data sources and workflow engines.

Anark Core Integrations for PDM—Reference integration code for Teamcenter, Windchill PDMLink, ENOVIA, and SolidWorks EPDM for workflow-driven, recipe-based publishing automation. Provided as a service to our enterprise customers. Aras and Autodesk Vault are next up.

Anark Core Product Licensing

Global Product Data Interoperability Summit | 2015

Anark Core Server—licensed per OS server instance. Per user licensing is possible in contexts where user licenses are enforced (e.g. in the context of a PDM system like Teamcenter).

Anark Core Workstation—licensed per simultaneous desktop user (floating), similar to NX.

Anark Core SDK—licensed per IT development team.

Anark Core Integrations for PDM—provided as a service to Anark customers.

Anark Core Key Commercial Differentiators

Global Product Data Interoperability Summit | 2015

1. Unites **CAD/PLM with MES/ERP** for “In-Context” Enterprise document generation
2. Transform **multiple sources of product data** based on **Enterprise Business Rules (Anark Core recipes)**
3. Multi-CAD support with **accurate & trustworthy MBD**
4. Server-based **automatic document generation & regeneration** based on source data changes, serving multiple engineering and manufacturing use cases.
5. Server-based **collaboration capabilities** for managing supply chain comments and markup.
6. Template based delivery platforms (3D PDF & 3D HTML), that are **FREE to View and FREE to deploy**

Transform Master Data and Achieve ERP-PLM Harmony

Global Product Data Interoperability Summit | 2015

Anark Core MBE Cloud and Mobile Platform

Global Product Data Interoperability Summit | 2015

- Deliver the **Fantastic Four** to Web & Mobile
- Anark Core Services available from Any Device
- Robust HTML5 Application Publishing w/WebGL
- Multi-tenant Architecture
- Intelligent Clustering and WAN Localization
- Fully Virtualized for Private or Public Hosting
- No end-user licensing fees—free to view, free to deploy!
