IMTS 2014 QIF 2.0 Demo

Global Product Data Interoperability Summit | 2014

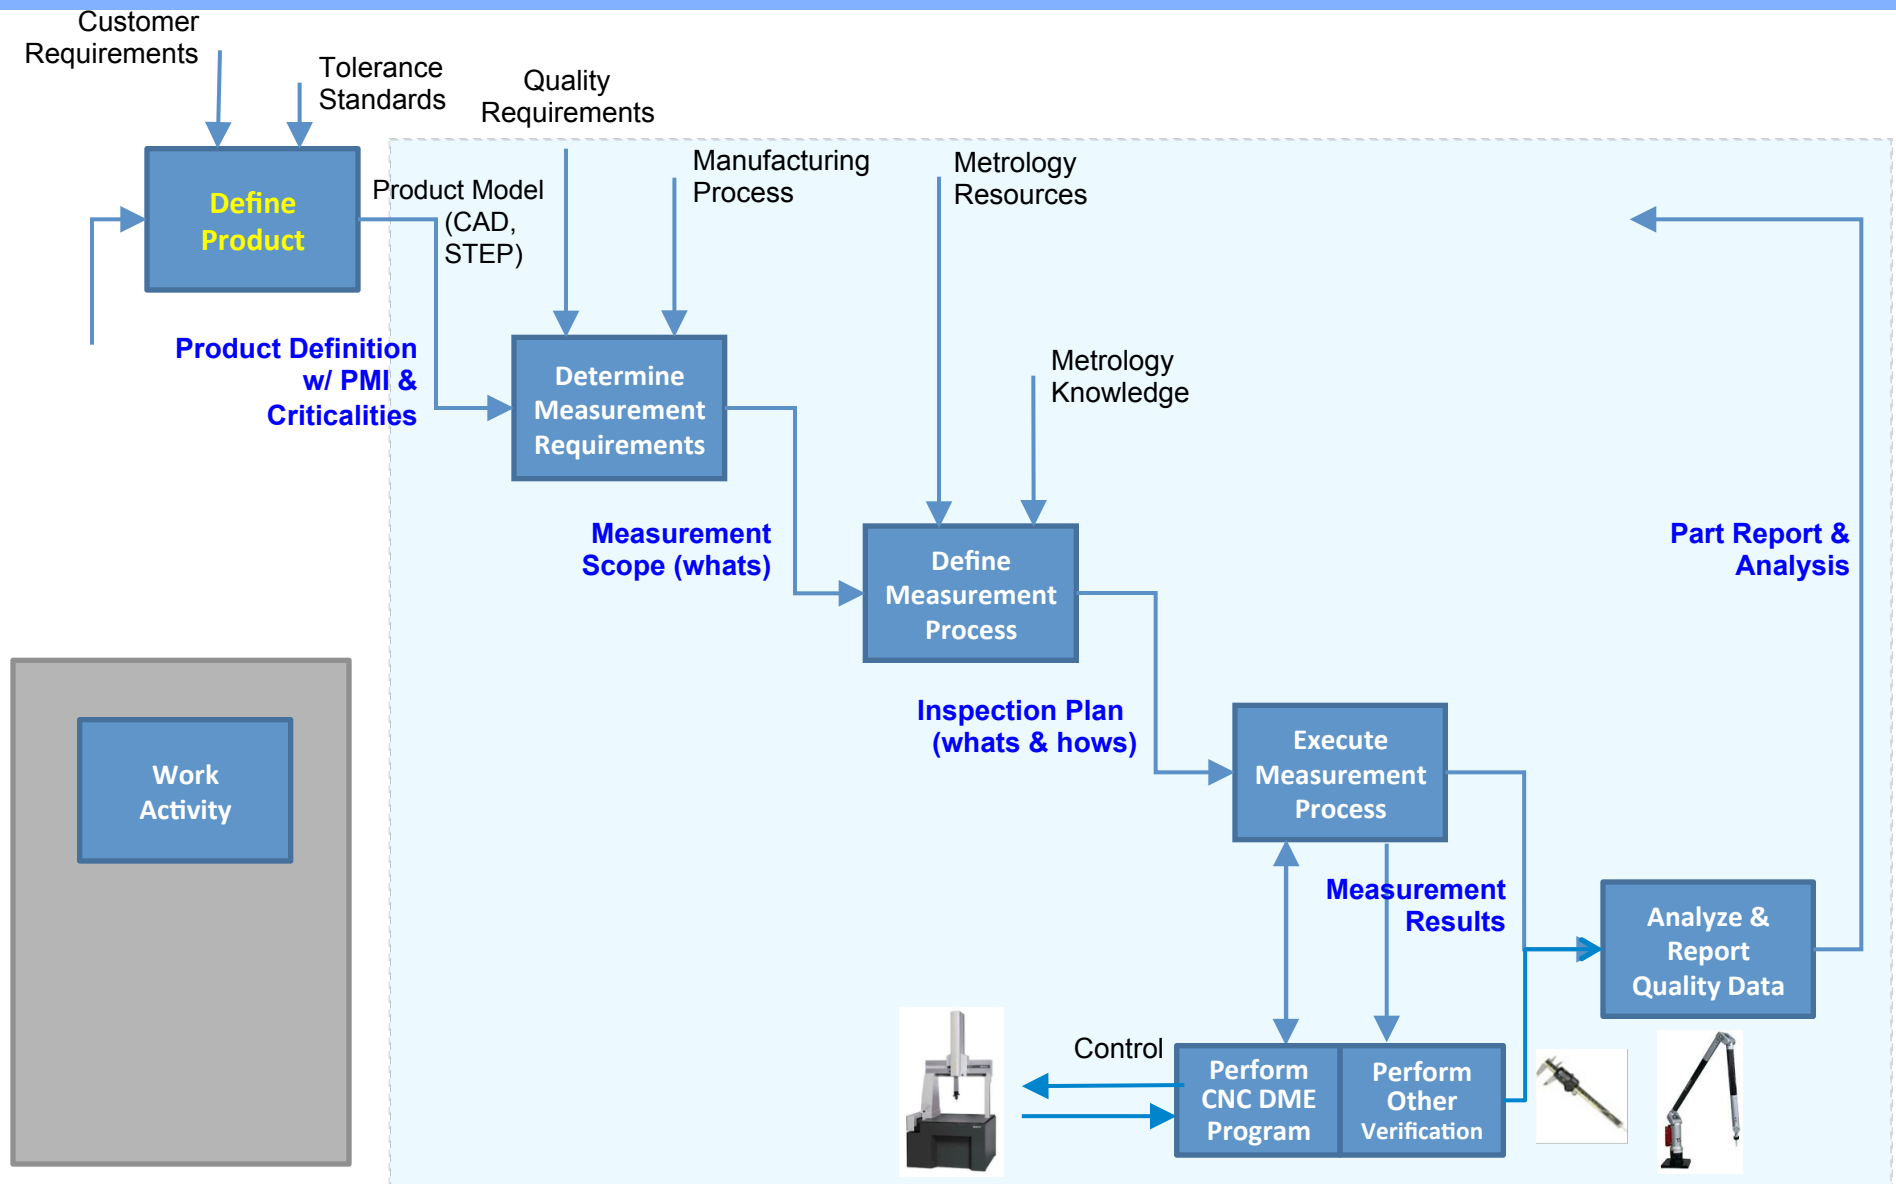

ANSI Standard Quality Information Framework (QIF™) Standard

New QIF™ v2.0 Standard: A significant Breakthrough for the Metrology Industry

- Burleson, Texas, USA – September 3, 2014 – The Dimensional Metrology Standards Consortium, Inc. ([DMSC](#)) will hold a special event daily during the IMTS show September 8-13, 2014 at the McCormick Place in Chicago, IL.
- A demonstration of QIF (Quality Information Framework) version 2.0 draft standard will be held Tuesday-Friday Sept 9 – 12 at the Daily Demonstrations: 10AM – 2PM
- DMSC President Curtis Brown of Honeywell FM&T, Lockheed Martin, NIST, John Deere, Capvidia, Metrosage, Origin International, IPI Solutions, Mitutoyo America Corporation, Innovalia Metrology, MTConnect Institute, InfinityQS, Kotem Ltd, Renishaw, and PAS Technology, will demonstrate QIF version 2.0 as published in the September 5th, 2014 ANSI Standards Action publication.

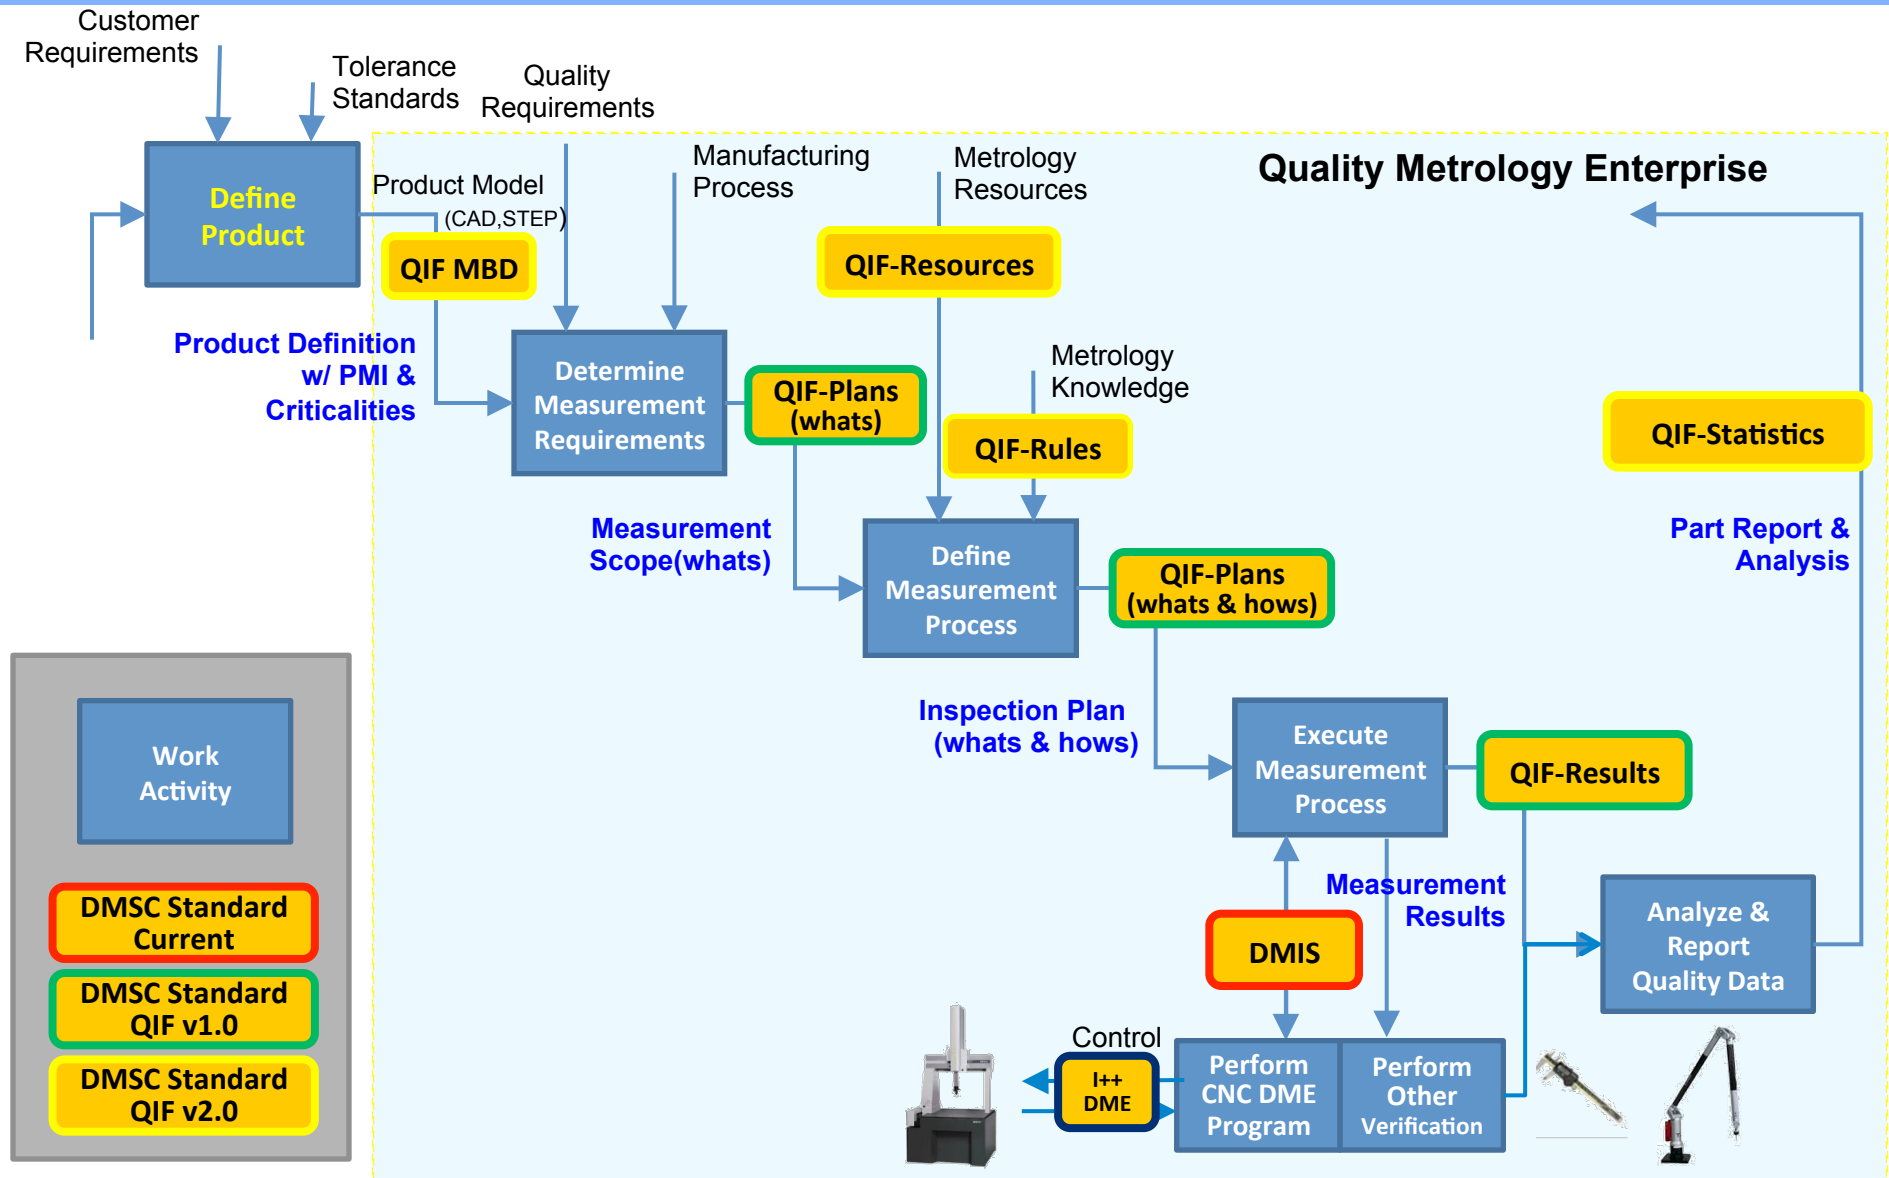

Product Verification Activity Workflow

Global Product Data Interoperability Summit | 2014

QIF v2.0 Digital Product Verification Process

Global Product Data Interoperability Summit | 2014

Outline

Global Product Data Interoperability Summit | 2014

- Digital Product Verification (DPV)
- Standards for Interoperability enable the **Model Based Enterprise (MBE)**
- Quality Information Framework enables DPV
 - Structure of QIF, design principles
 - Validation and demos
 - Current development status
- Dimensional Metrology Standards Consortium
- Summary and Request for Involvement

Digital Product Verification - Issue Statement

Global Product Data Interoperability Summit | 2014

- **Metrology Community** is digital and model centric, unfortunately, even with the **successful emergence of CAD**, we have **not realized the benefits** promised by this investment.
- **Two primary needs:**
 1. Full end to end **Digital Metrology Interoperability**
 - *DMSC Response: via QIF Working Groups*
 2. Metrology applications, as well as other downstream applications, need complete, accurate, and cost effective **model-based product definitions** with **smarter semantic PMI**
 - Native CAD w/PMI
 - STEP AP242 w/PMI
 - *DMSC Response: DMSC/Capvidia MOU via QIF CAMBD Working Group*

MBM Critical Requirements

Global Product Data Interoperability Summit | 2014

- **Model Based Definition for Metrology / Manufacturing**
 - Complete, Accurate, & Cost Effective Product Definition
 - Common, Domain-Specific Features Manages Complexity
 - Smarter Model Based Semantic PMI (e.g., Product Tolerances)
- **Quality Digital Interoperability Requirements**
 - Measurement Process Planning
 - Measurement Scope (i.e., Bill of Characteristics)
 - Inspection Planning
 - Measurement Results & Process Analysis
 - Dimensional
 - Real-Valued
 - Attribute
 - Supports Standards
 - ASME Y14.5, *Dimensioning and Tolerancing (Similar to ISO TC213 Suite)*
 - ASME Y14.41, *Digital Product Data Definition*
 - ISO/DMSC 22093 DMIS 5.2, *Dimensional Measuring Interface Standard*
 - AS9102a, *Aerospace First Article Inspection Requirement*

Quality Information Framework

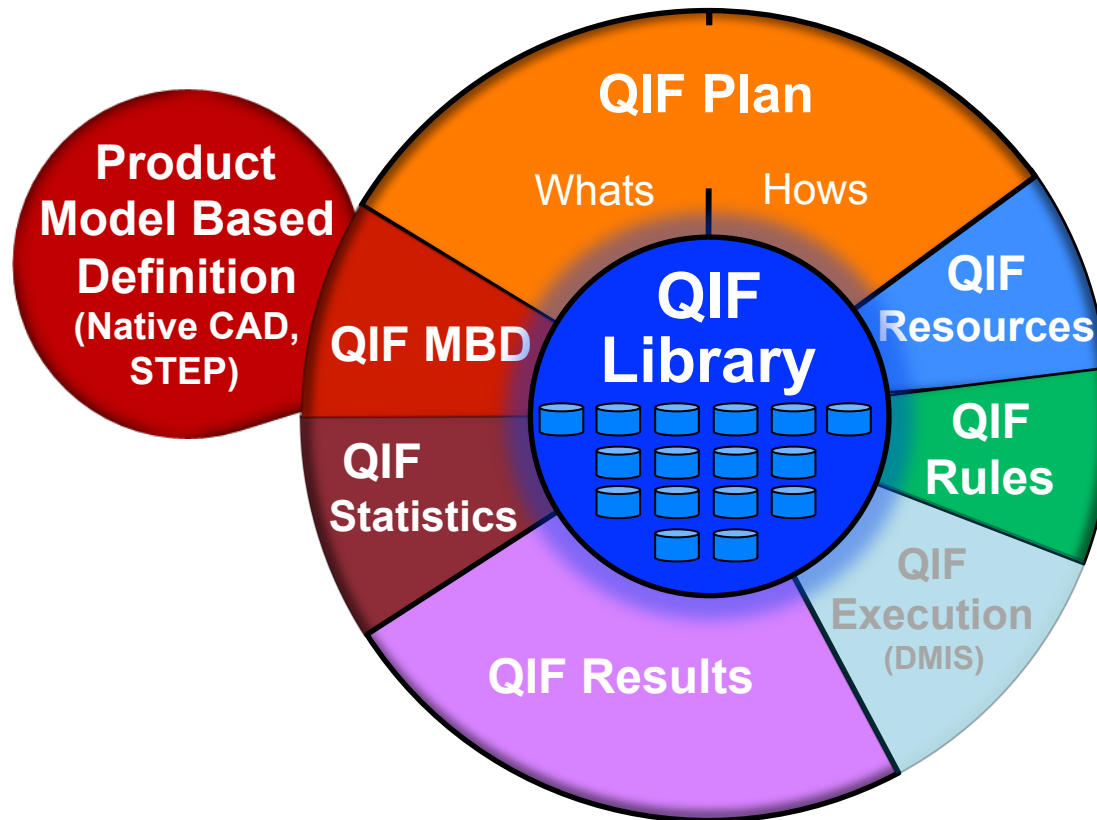

Global Product Data Interoperability Summit | 2014

- QIF™ is a standard integrated information model for the **efficient exchange** of data between software and equipment modules for discrete product measurement
 - **Standard:** Open development, free-to-implement, free tools
 - **Integrated:** No overlap, harmonized upstream & downstream
 - **Modern/Affordable:** World Wide Web Consortium's (W3C) XML
 - **Information model:** W3C's XSD
 - **Implementation/data verification:** W3C XSLT
 - **XML Application Data Files:** Conform to QIF data model
 - **Measurement process modules:**
Plan, Program, Execute, Report/Analyze
- QIF is developed within the Dimensional Metrology Standards Consortium (**DMSC**)

QIF v2.0 Metrology 'Life Saver' Architecture

Global Product Data Interoperability Summit | 2014

Planned QIF v2.0

QIF Model Suite

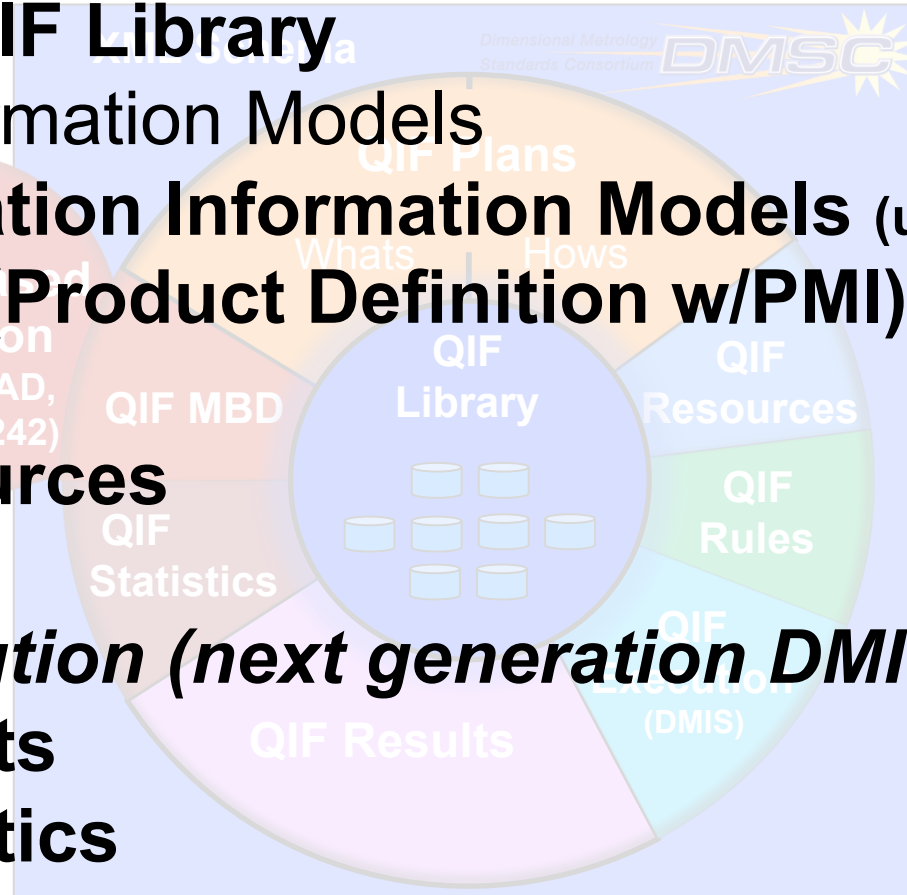

Global Product Data Interoperability Summit | 2014

Common QIF Library

Eight Information Models

QIF Application Information Models (use the QIF Library)

- QIF MBD (Product Definition w/PMI)
- QIF Plans
- QIF Resources
- QIF Rules
- *QIF Execution (next generation DMIS)*
- QIF Results
- QIF Statistics

QIF MBD

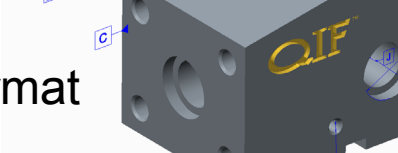

Global Product Data Interoperability Summit | 2014

**Product
Model Based
Definition
Source**

QIF MBD

**QIF
Library**

- XML Schema (Initiated by DMSC/Capvidia MoU)
 - Expose the Product Definition w/ PMI in the QIF format
 - Model Based Product Definition
 - Model Based Definition (e.g., Solid Model)
 - Various Conformance Levels of Semantic PMI (GD&T)
 - Easier Use and Implementation for downstream applications
 - Satisfy Native CAD to Model Based Metrology Use Case and more....
 - Satisfy STEP to Model Based Metrology Use Case and more....
- 

Complete & Accurate Model Based Definition
Product Definition w/ Product Manufacturing Information
Motivated to support Model Based Metrology/Manufacturing

- QIF Library
 - Includes PMI
- Native CAD + PMI
 - STEP AP242
- INCLUDES PMI!

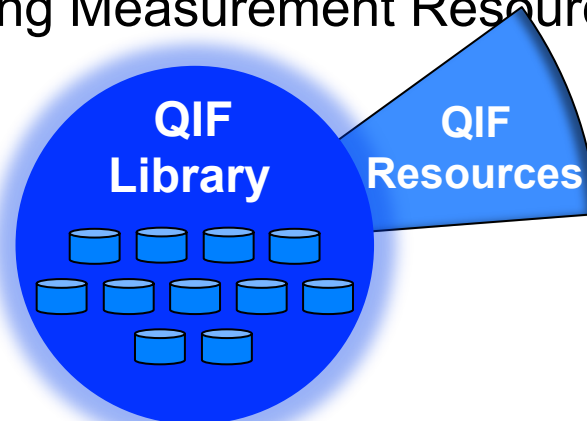

QIF Resources

Global Product Data Interoperability Summit | 2014

(27 Mar 2014)

Quality Measurement Resources

- XML Schema
- Supports QIF Plans w/Methods (i.e., hows)
- Standard format for Defining Measurement Resources
 - Measuring Equipment
 - Measure Devices
 - Accuracy
 - Calibration
 - Sensors
 - Rotary Tables
 - Work Centers
- Define Resources by
 - Company
 - Factory
 - Department
 - Supplier

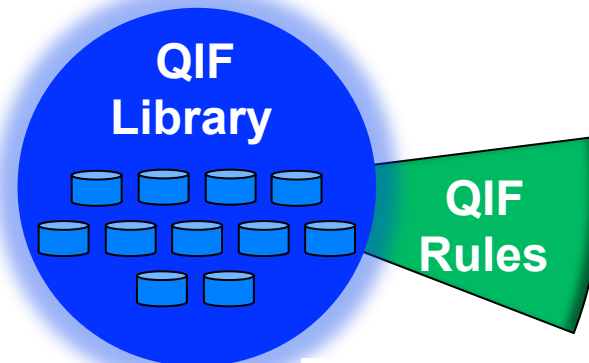

QIF Rules

Global Product Data Interoperability Summit | 2014

(27 Mar 2014)

Quality Measurement Rules

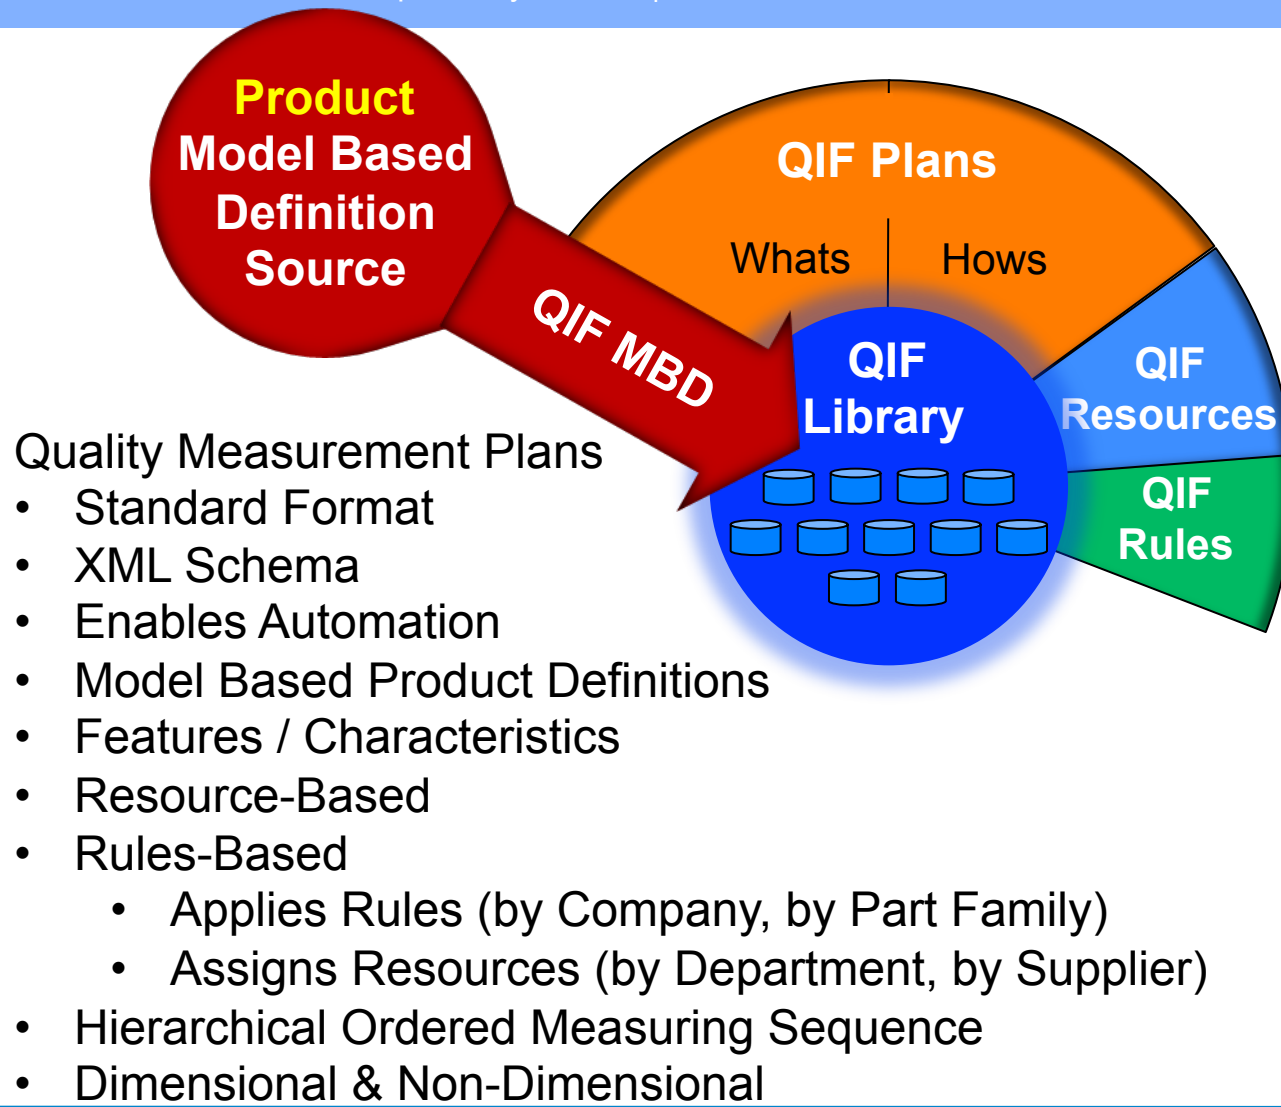

- XML Schema
- Supports QIF Plans w/Methods
- Standard format for Representing Measurement Rules
 - Point Measures
 - Resource Selections
 - Sampling Techniques
 - Algorithm Selection
 - . . .
- Enables Defining Rules by
 - Company
 - Part Family
 - Quality Level

Enhanced QIF Plans

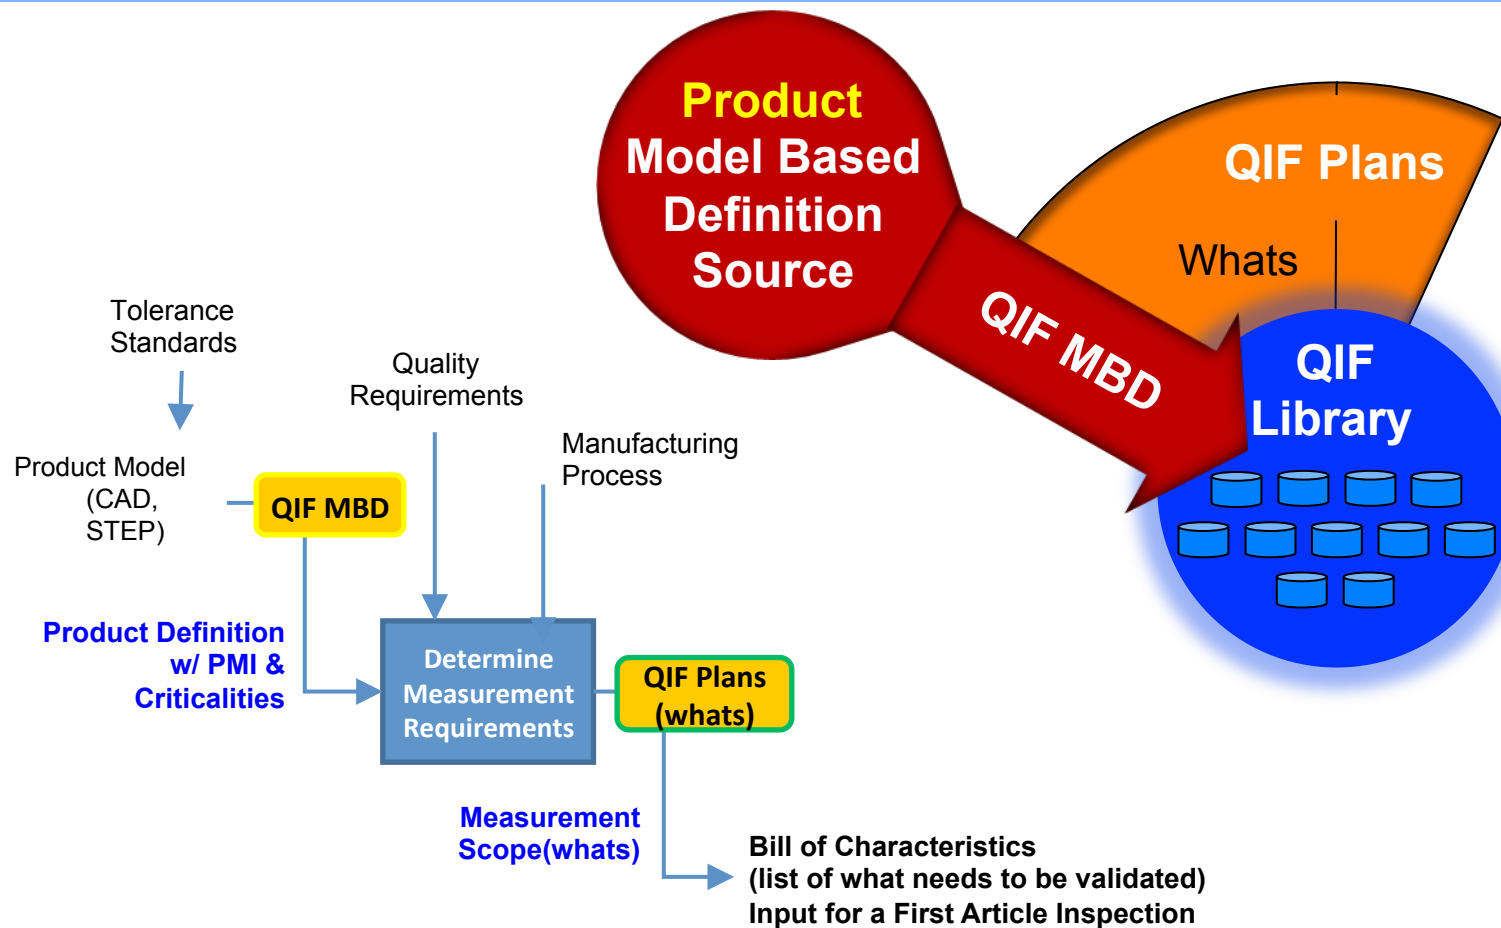

Global Product Data Interoperability Summit | 2014

Actions /
Methods /
Rules /
Resources

Bill of Characteristics with QIF Plans

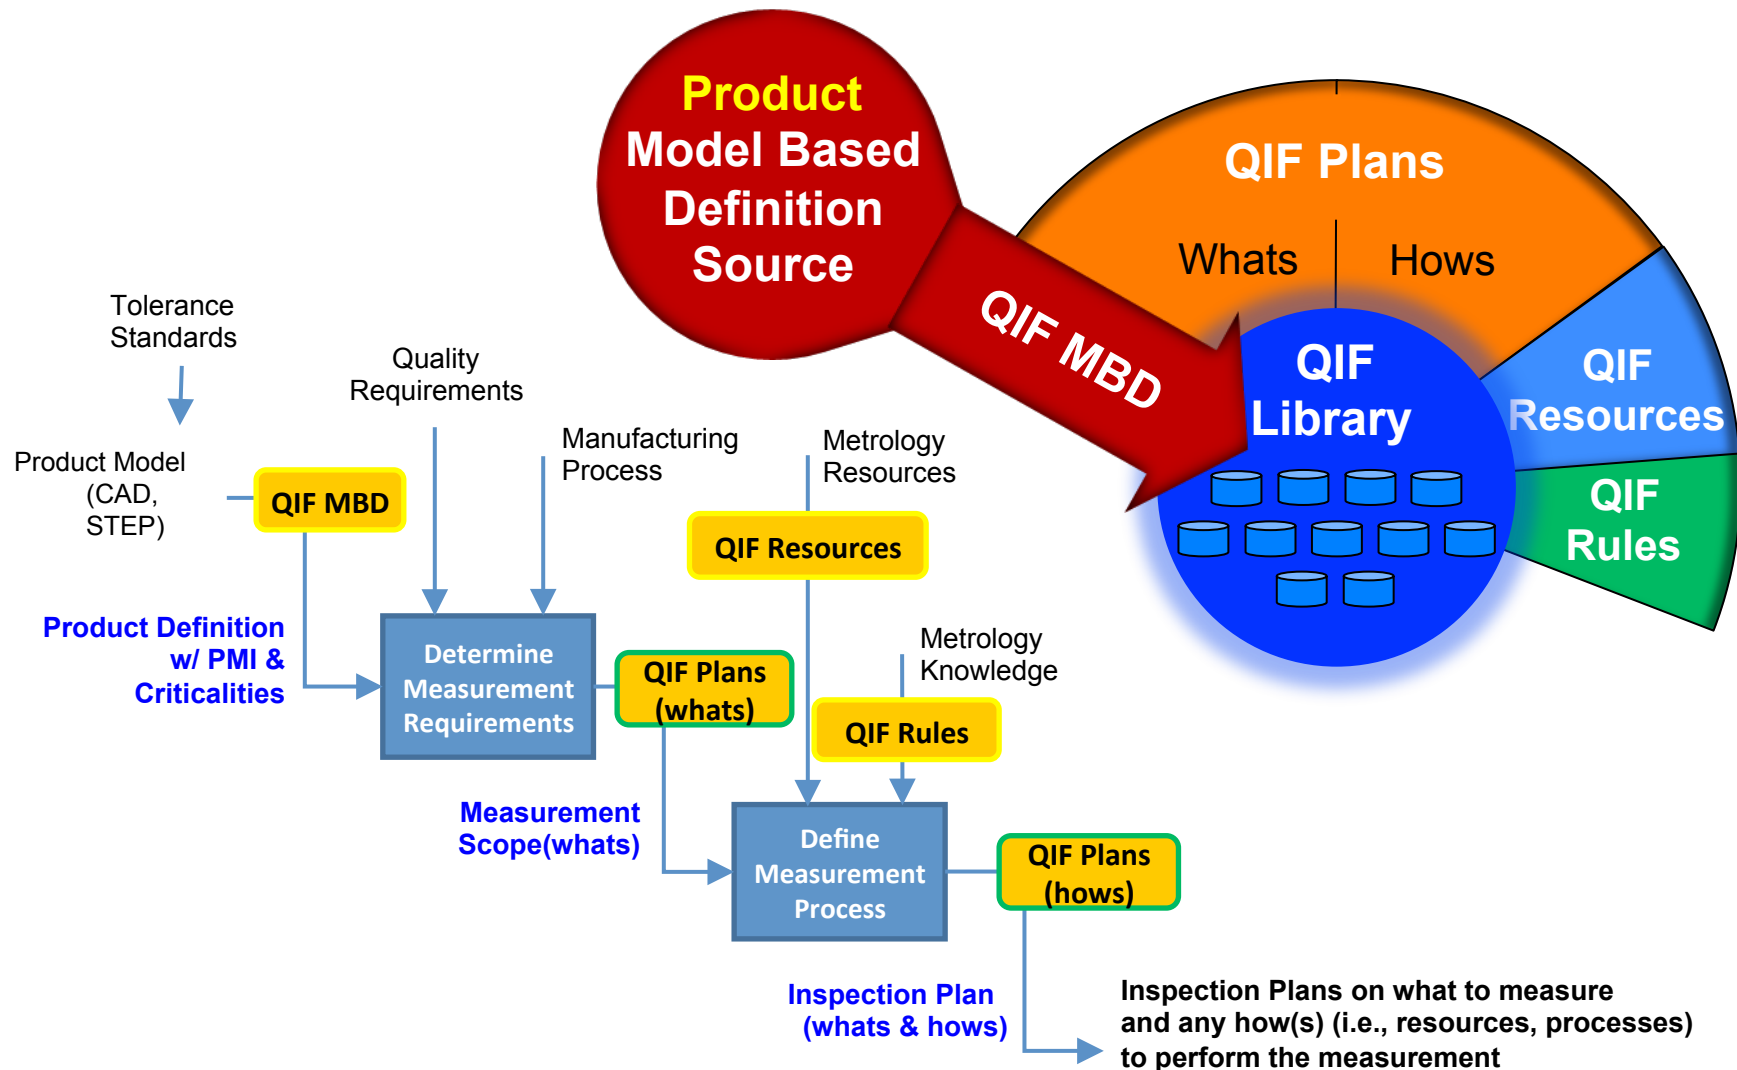

Global Product Data Interoperability Summit | 2014

Example [QIF PLAN_BOC_XML](#)

Inspection Process Planning with QIF Plans

Global Product Data Interoperability Summit | 2014

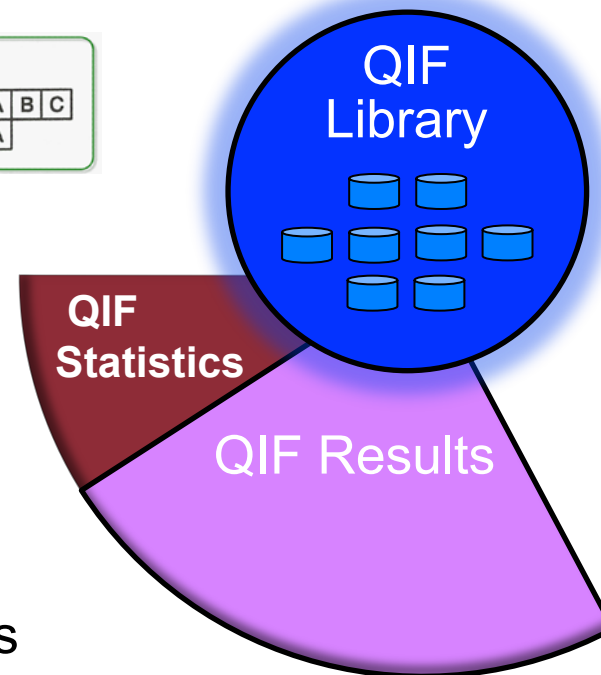

QIF Results and Statistics

Global Product Data Interoperability Summit | 2014

QIF Results and Statistics

- Analyzing Single and Multiple Part Inspection
- First Article, Capability, SPC, MSA
- Explicit Statistical Tolerances
- Identify Trends
- Trace Anomalies
- Provide Feedback
- Improve Production
- Assess Performance
- Judge Quality & Efficiency of Processes

PTC – Creo Parametric

Global Product Data Interoperability Summit | 2014

- Create precise geometry, regardless of model complexity
 - With a comprehensive library of CAD, CAID, CAM, and CAE extensions
- Create Product Definition w/ PMI & Criticalities
 - QIF MBD compliant
- Create 2D and 3D drawings according to international standards, including ASME, ISO, and JIS

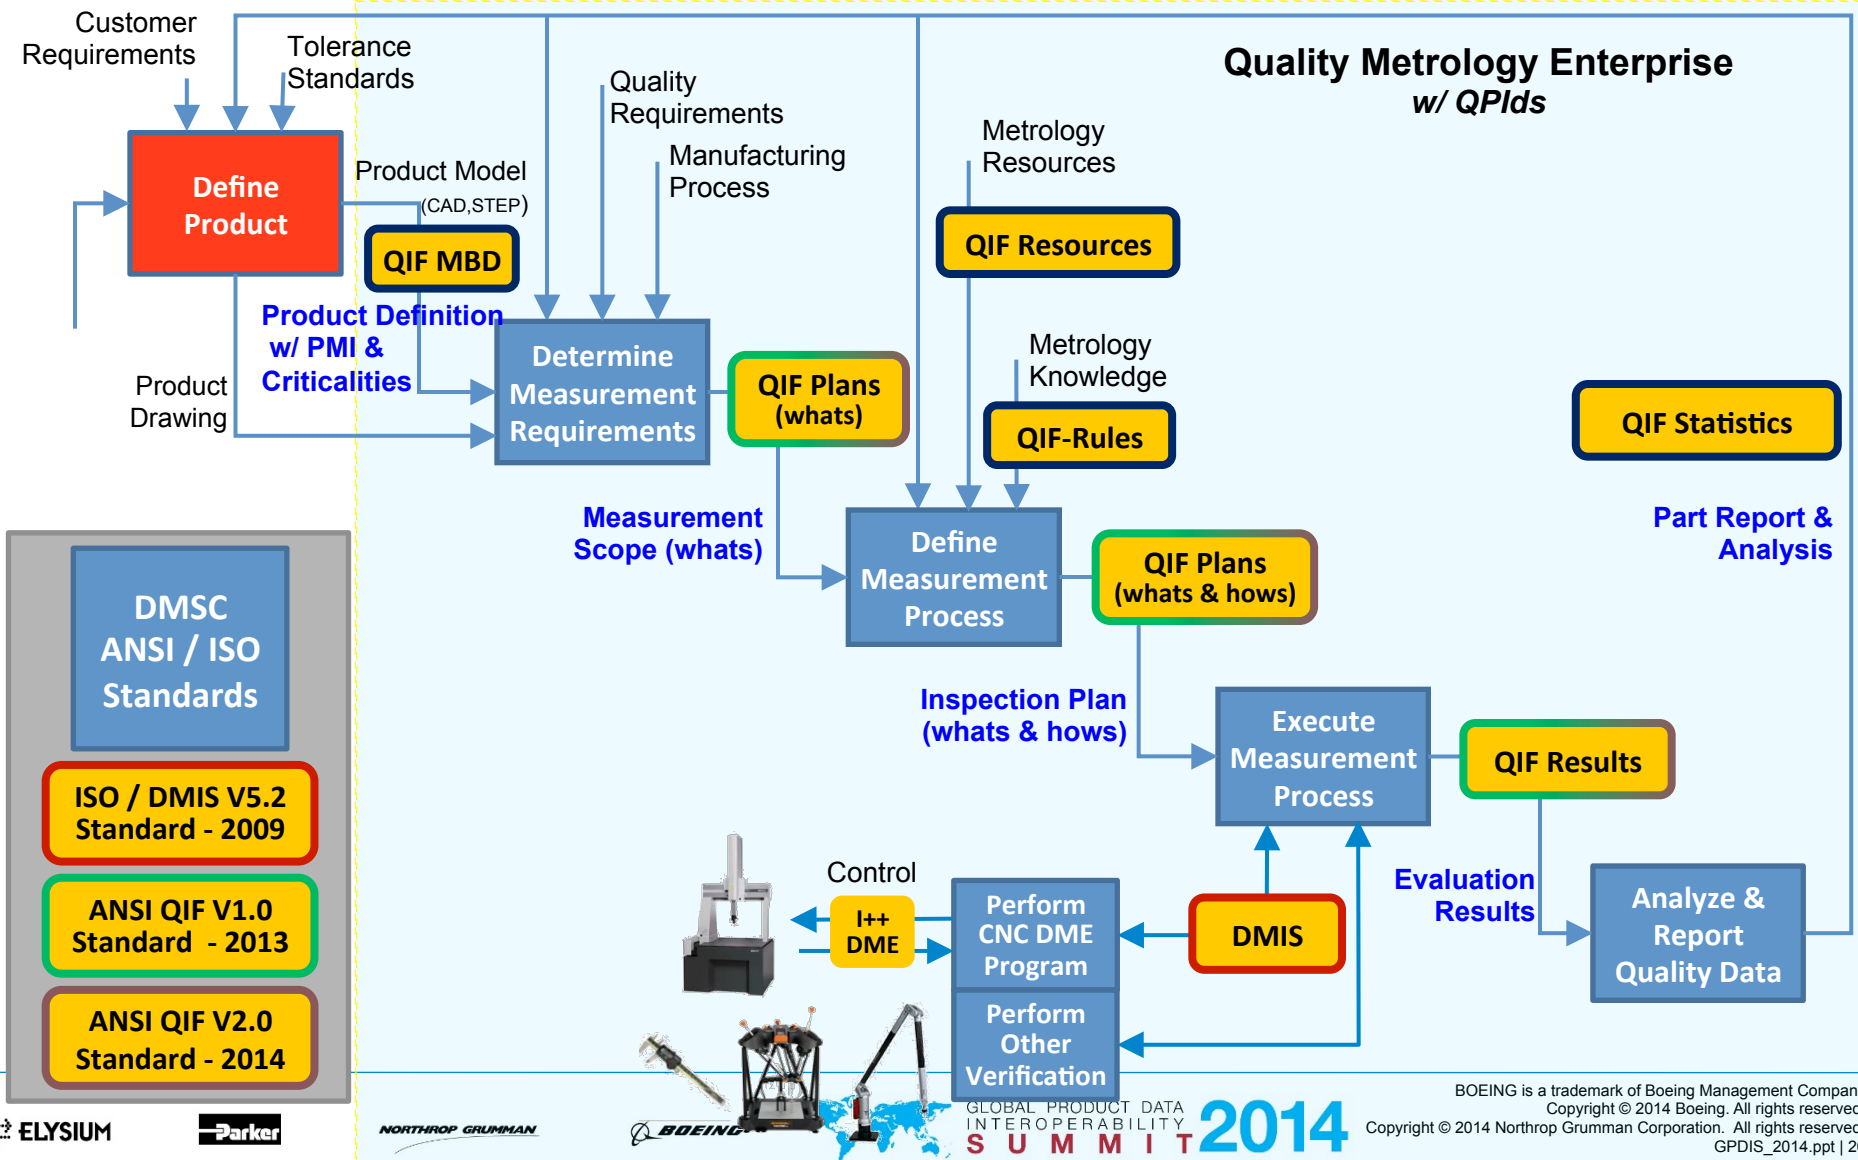

PTC Creo® Parametric™

PTC Creo Parametric provides the broadest range of powerful yet flexible 3D CAD capabilities to accelerate the product development process

QIF v2.0. PTC – Creo Parametric

Capvidia – CreoVidia, CompareVidia, & MBDVidia

Global Product Data Interoperability Summit | 2014

CreoVidia – Produce QIF

- Converts 3D Model + PMI into QIF
- Automatic QIF Feature Recognition
- Export to QIF:
 - 3D Model
 - Semantic PMI
 - Saved Views, Annotations
 - QIF Features & Characteristics

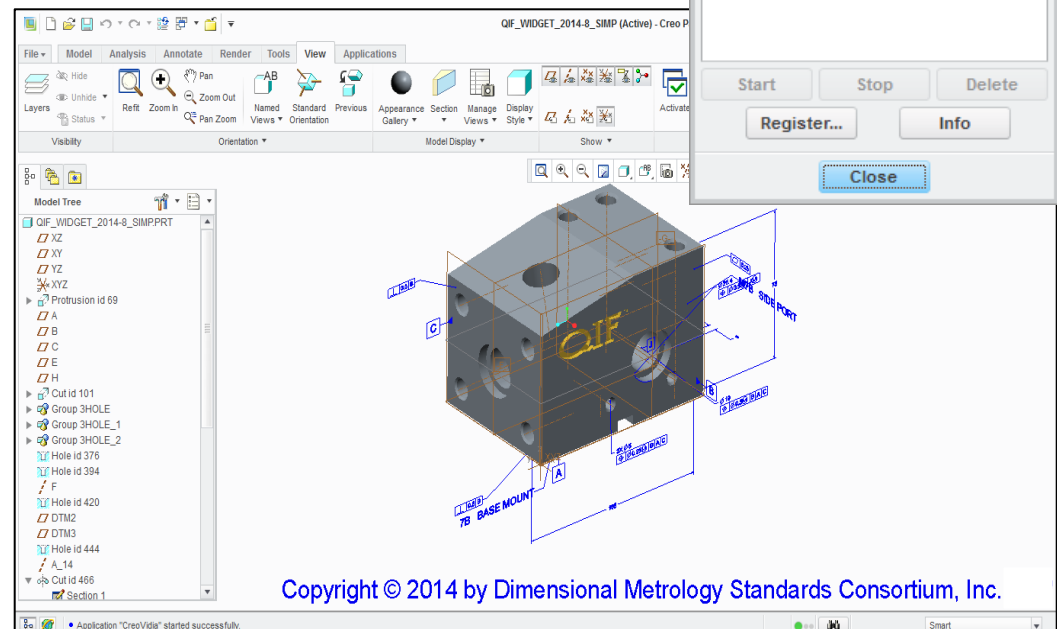

MBDVidia - View/Analyze QIF

- QIF Import
- View 3D Model & Semantic PMI
- Investigate QIF Features & Characteristics

CompareVidia - Validate QIF

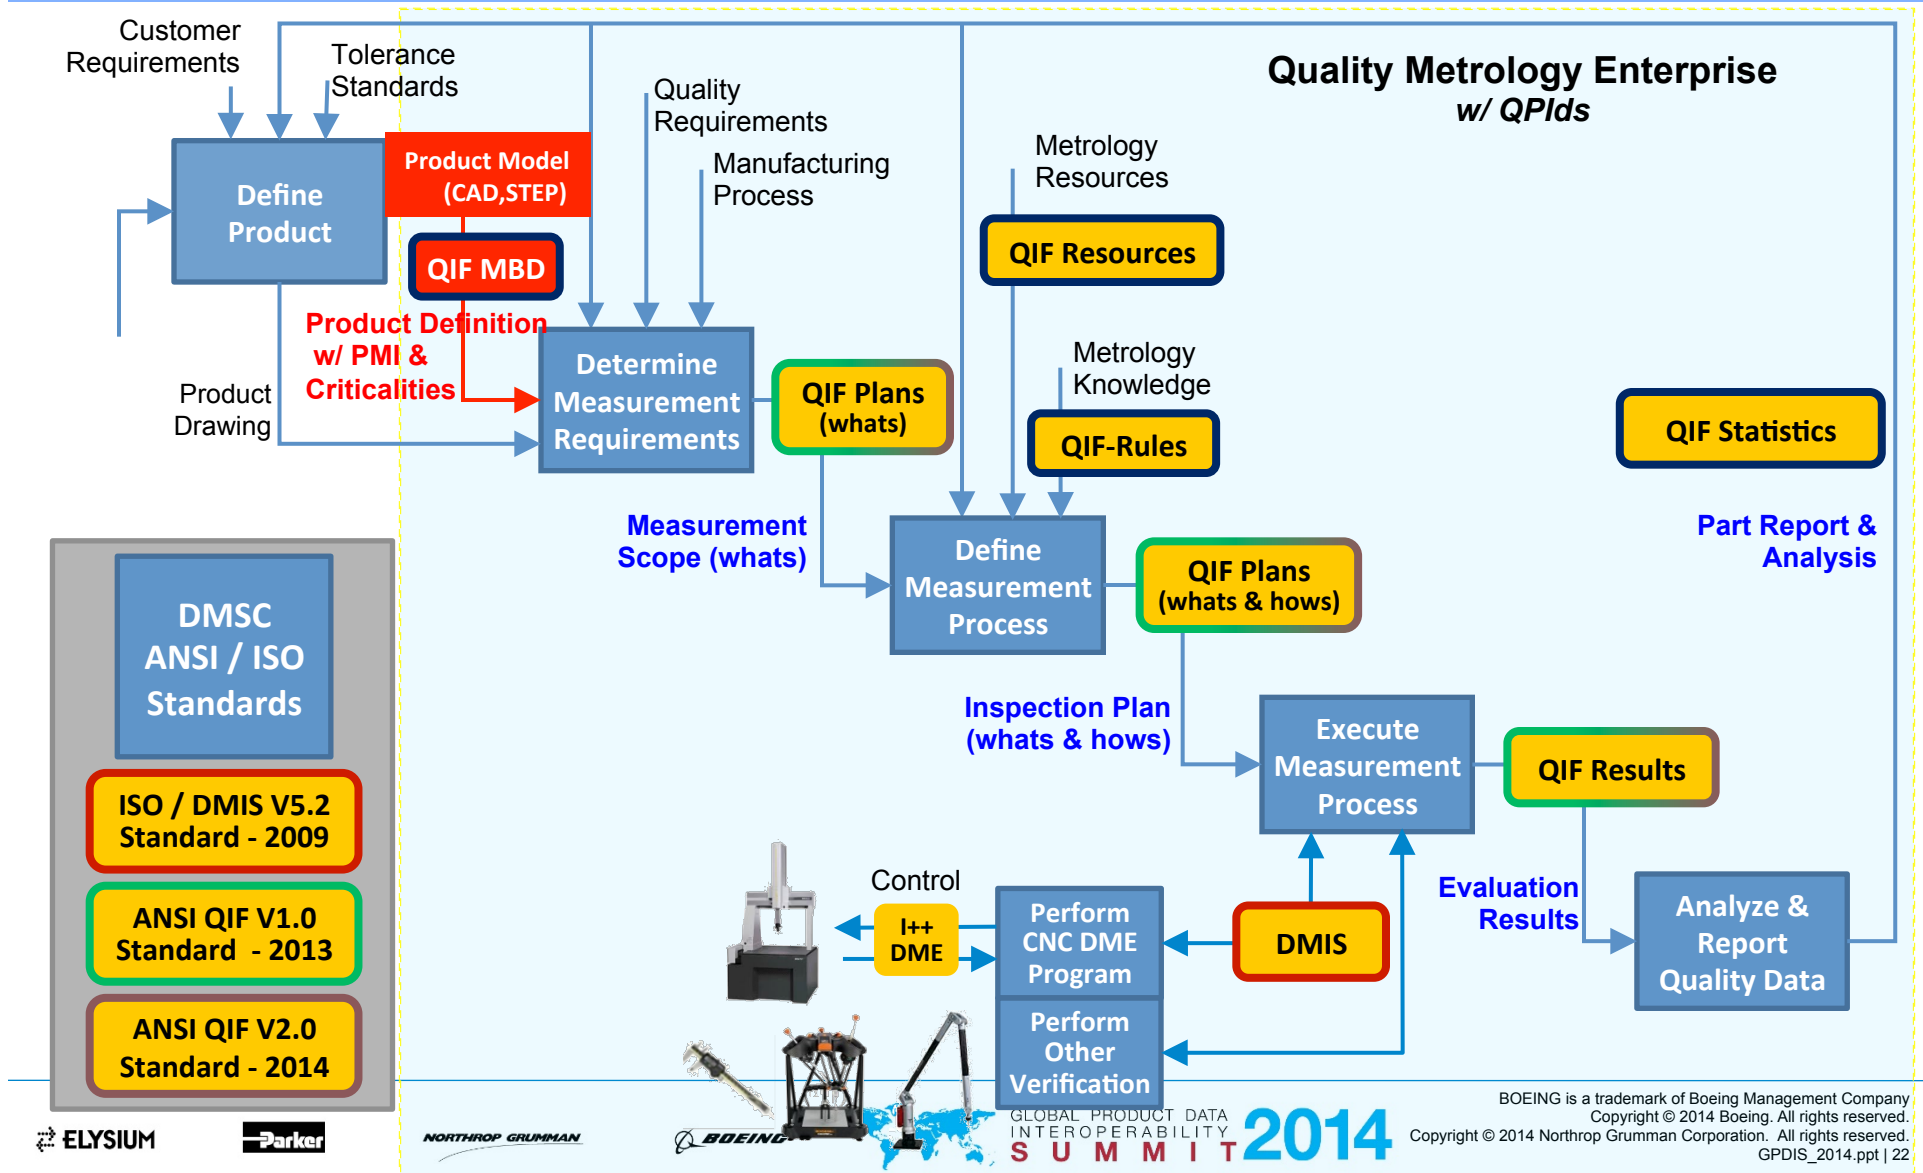

- Compares CAD/STEP with QIF:
 - Geometry
 - Semantic PMI
- Pass/Fail Report
- Ensures Integrity of QIF Model

CreoVidia – Capvidia Auxiliary PTC Creo Application to create QIF files

QIF v2.0 – Capvidia CreoVidia, CompareVidia & MBDVidia

Global Product Data Interoperability Summit | 2014

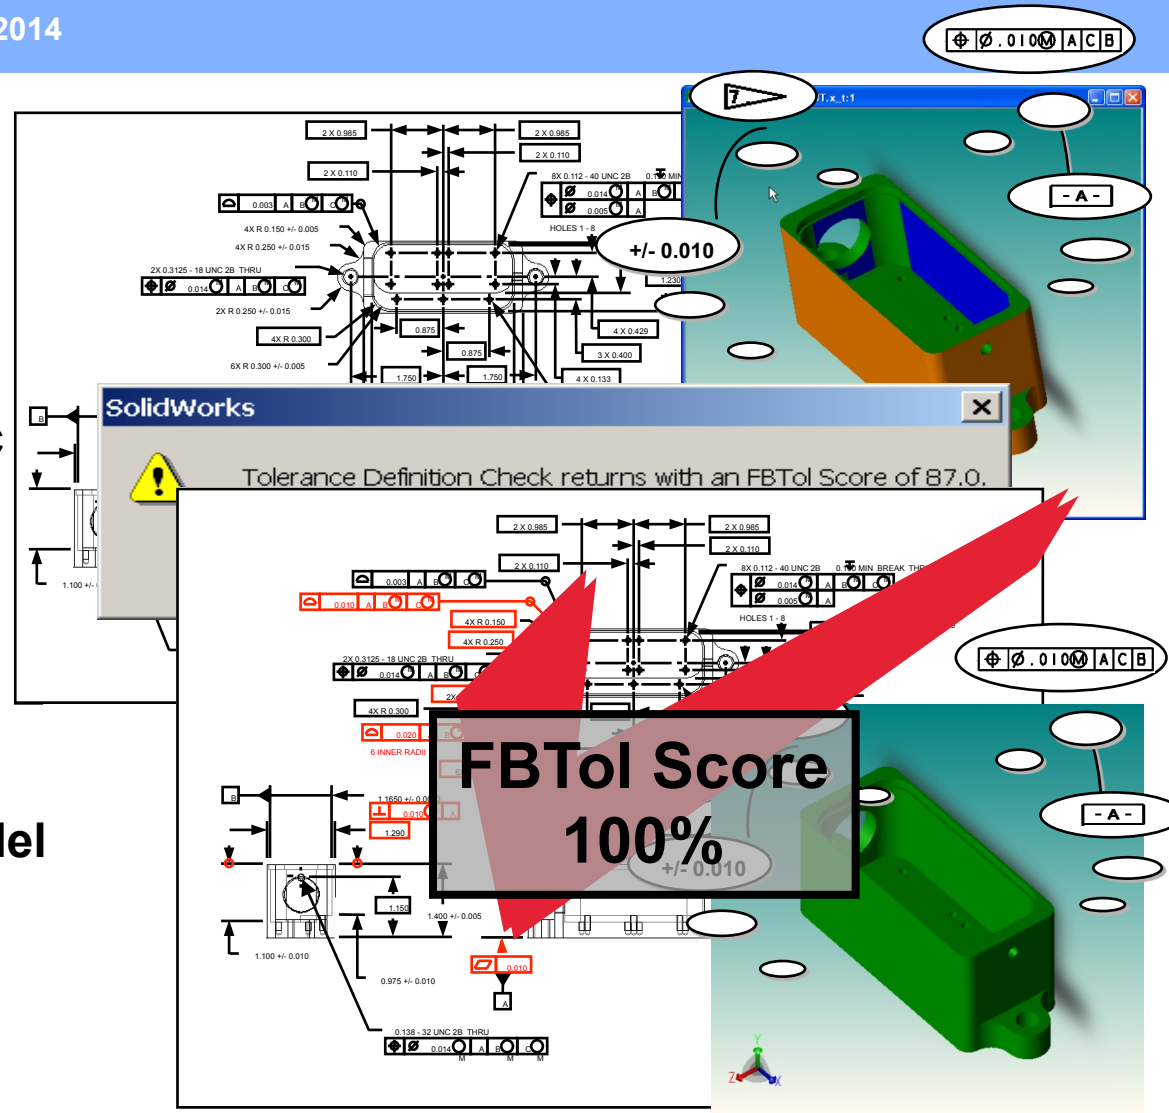

Honeywell FM&T's Feature-Based Tolerancing

Global Product Data Interoperability Summit | 2014

Enriches Model Based Definitions with 3D Functional Tolerance Information

- Represents Fully Semantic Tolerances
- Recognizes Tolerance Features Automatically
- Infers Correct Tolerances
- Checks & Grades Part Tolerance Definition
- Provides Downstream Model Based Applications with Explicit Tolerance Data
- Generates Model-Based Quality Plans (BoC) in QIF format

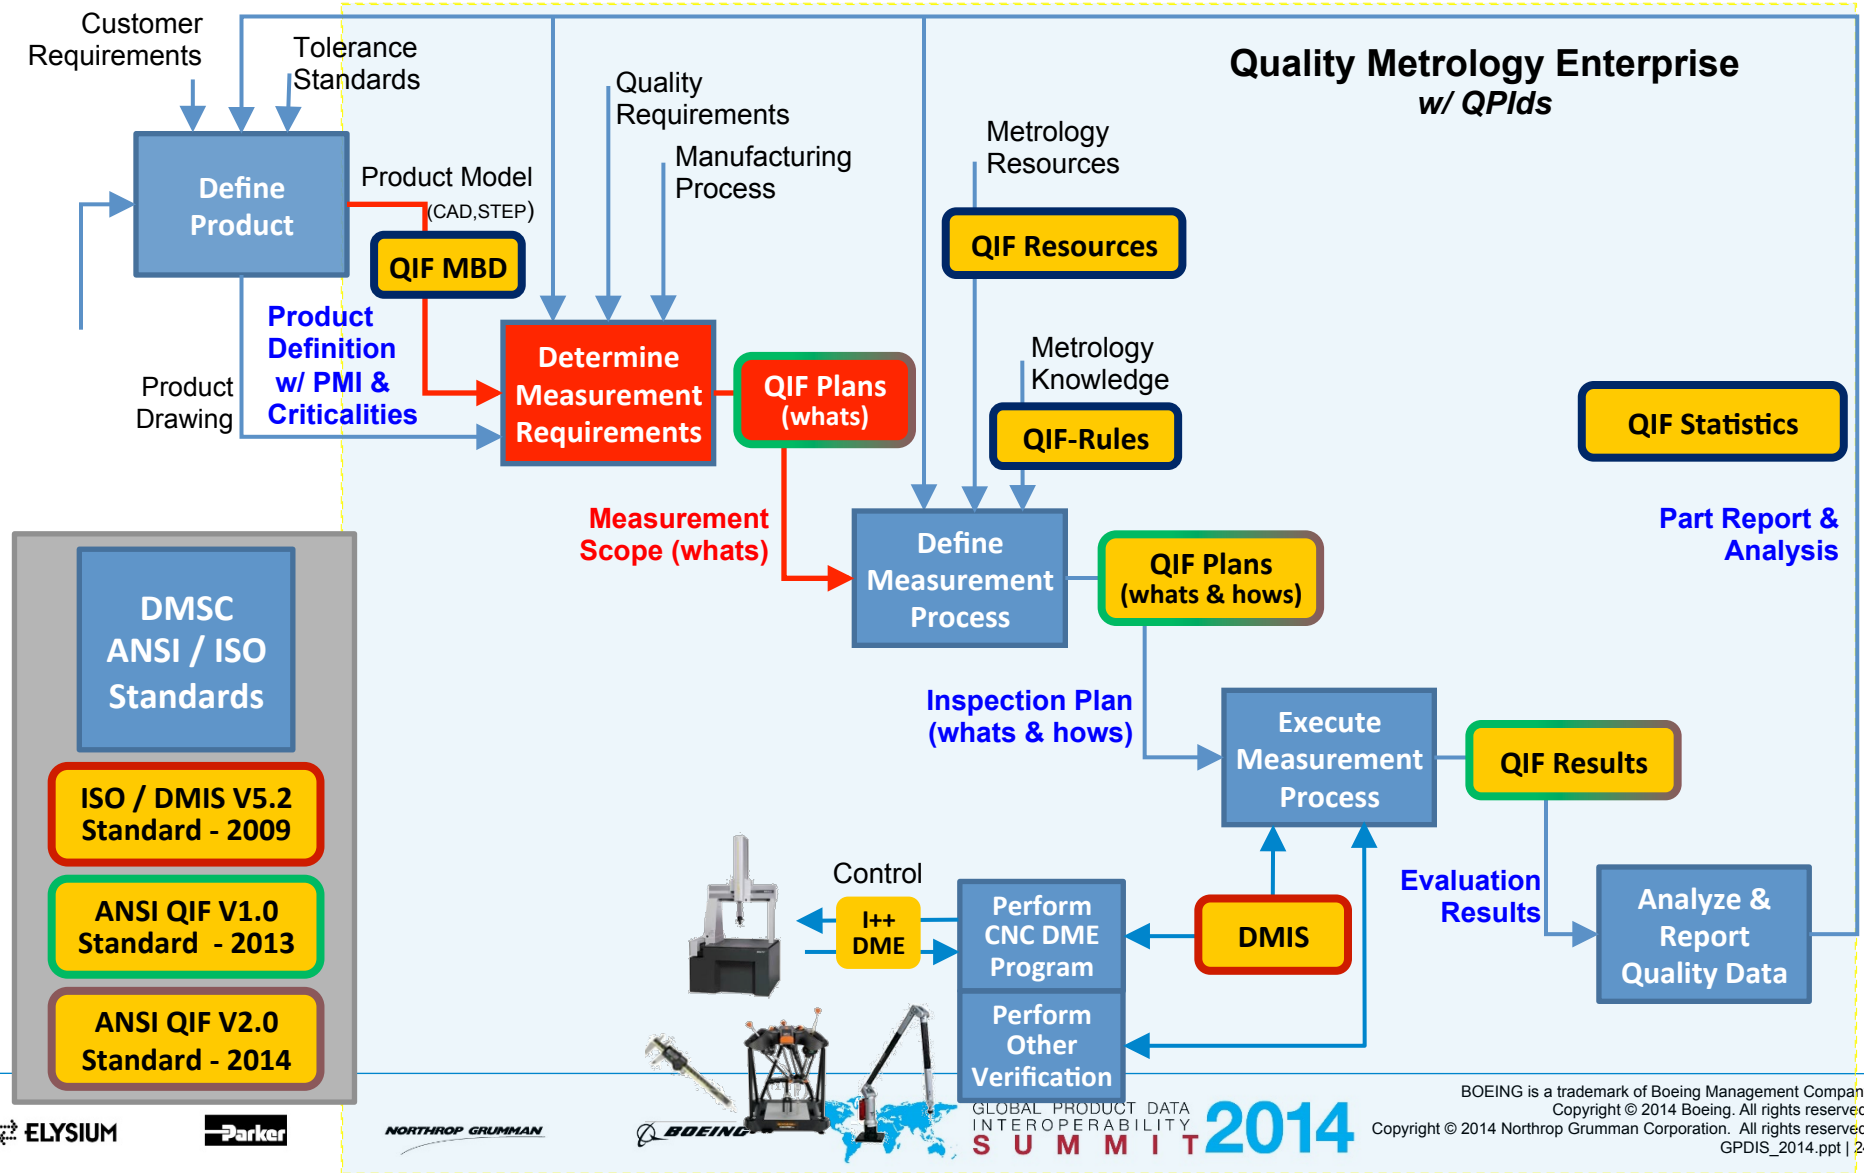

QIF v2.0 – Honeywell FM&T with FBTol

Honeywell

Global Product Data Interoperability Summit | 2014

Quality Metrology Enterprise w/ QPIs

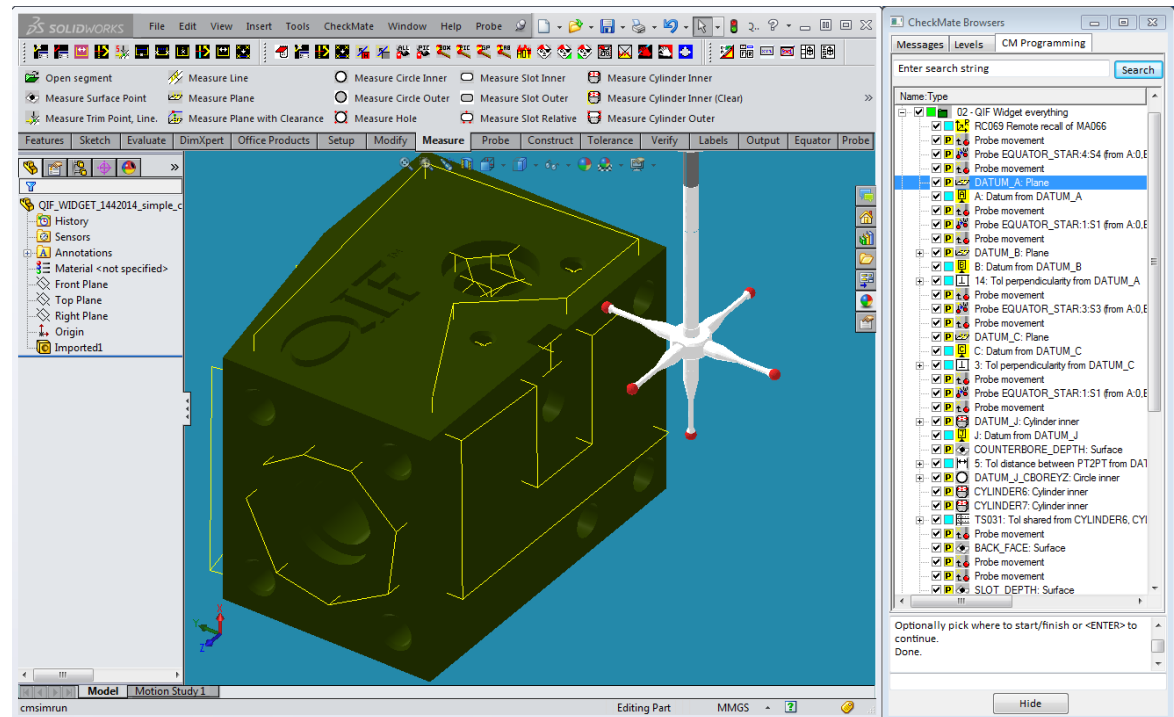

Origin – CheckMate and CheckMateRT

Global Product Data Interoperability Summit | 2014

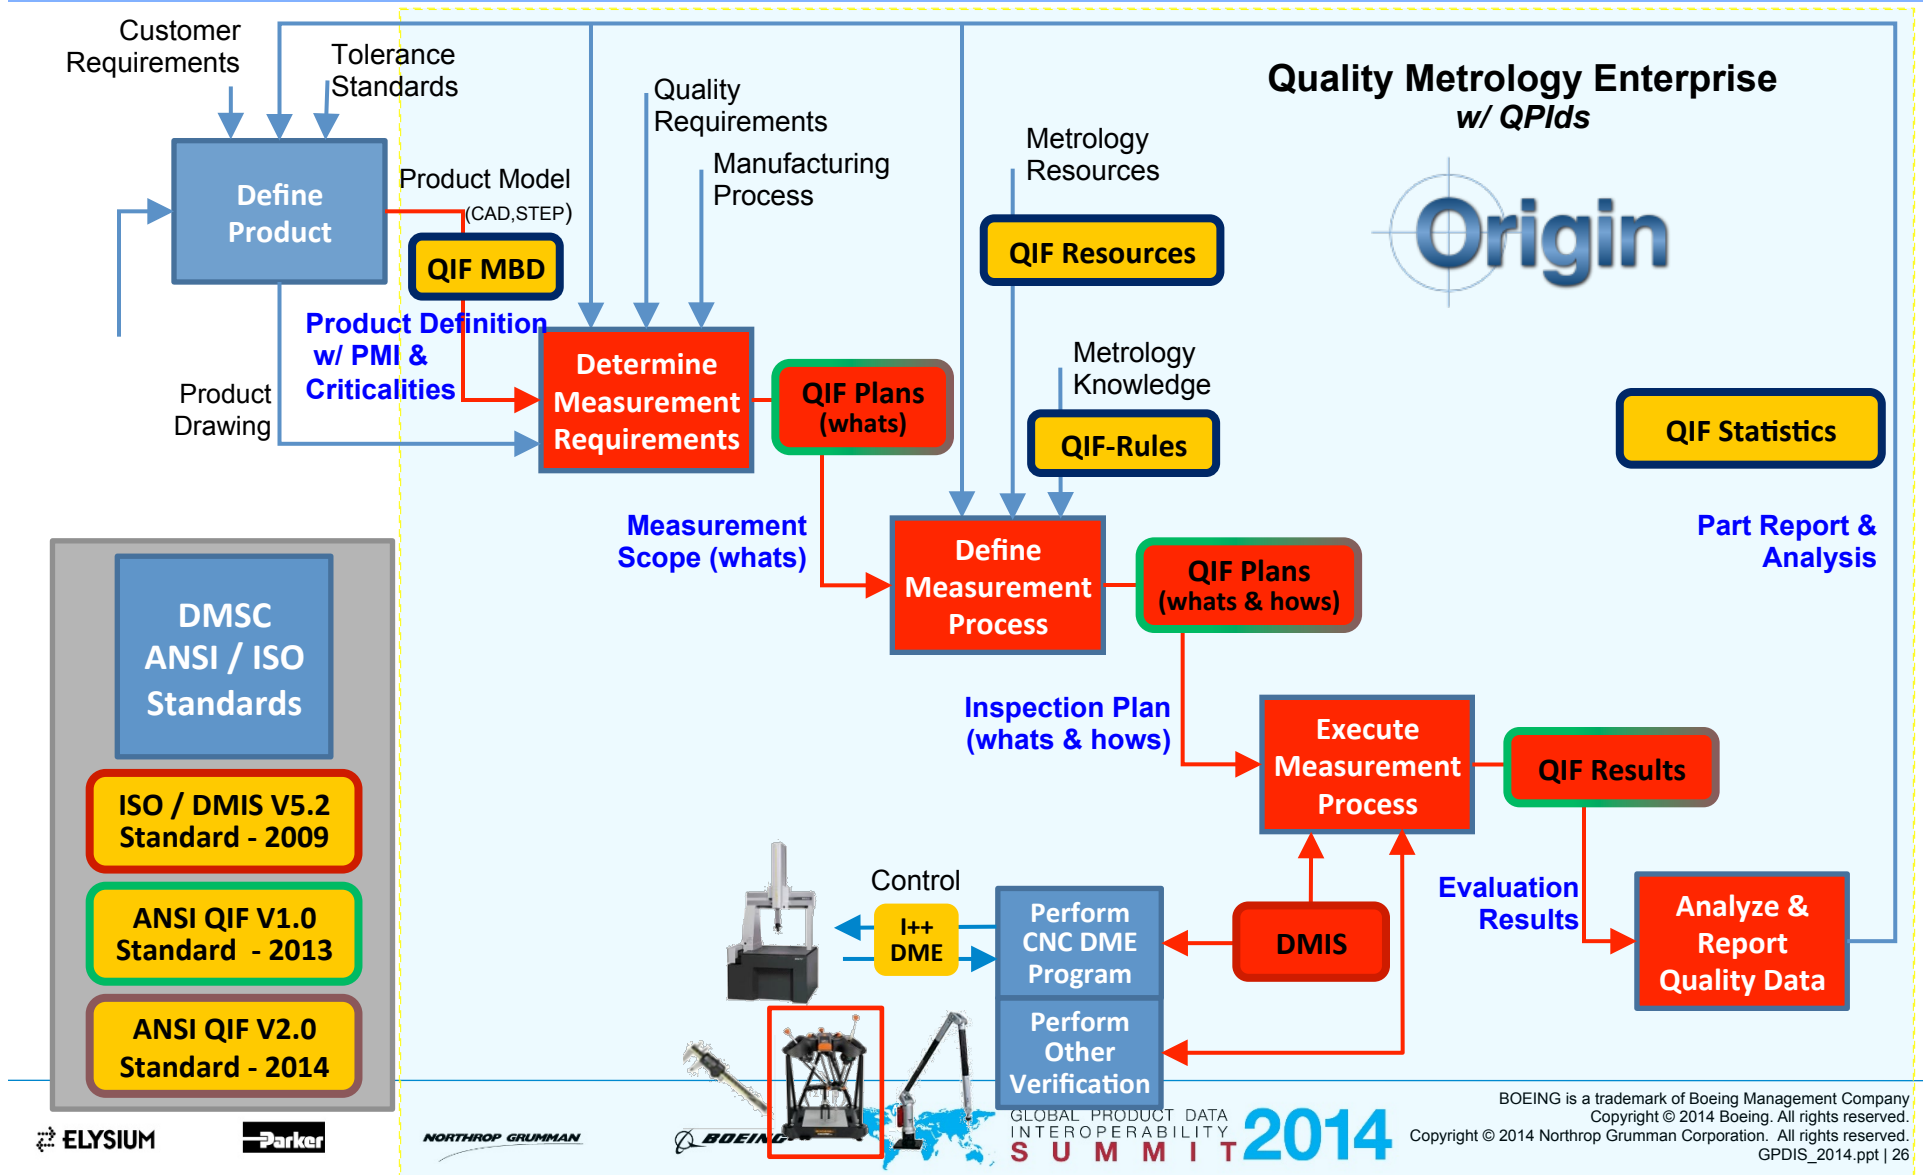

CheckMate – offline programming, reporting and analysis for both CMM and point cloud systems

- Consume QIF MBD or QIF Plan
- Produce DMIS program (.DMI)
- Consume DMIS results (.DMO)
- Produce QIF Results

QIF v2.0 – Origin – CheckMate and CheckMateRT

Global Product Data Interoperability Summit | 2014

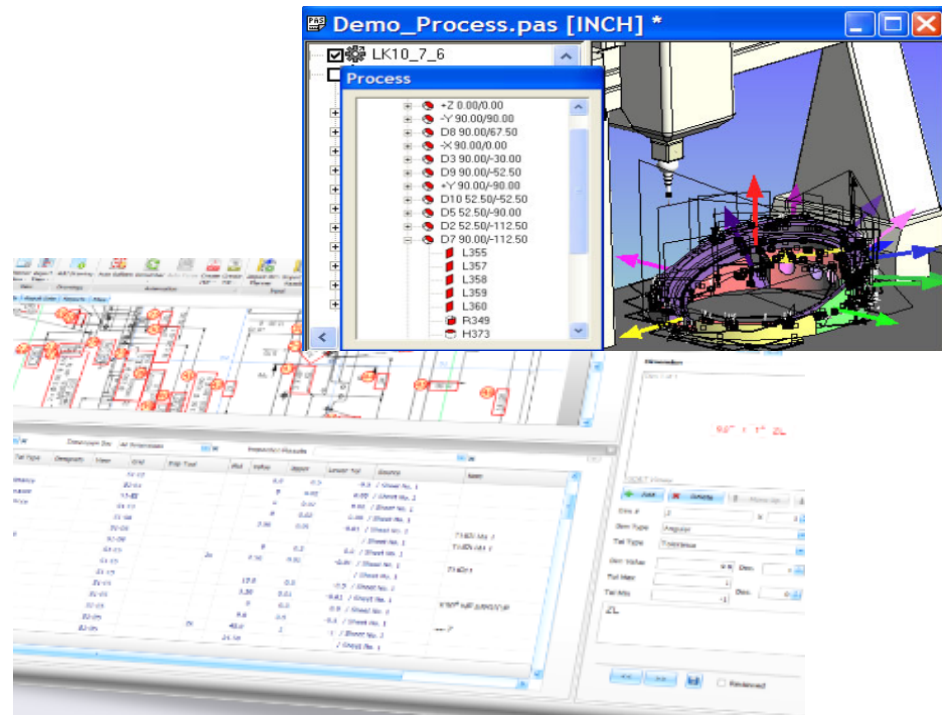

QIF v2.0 – PAS TECHNOLOGY – PAS CMM & Inspection Manager

Global Product Data Interoperability Summit | 2014

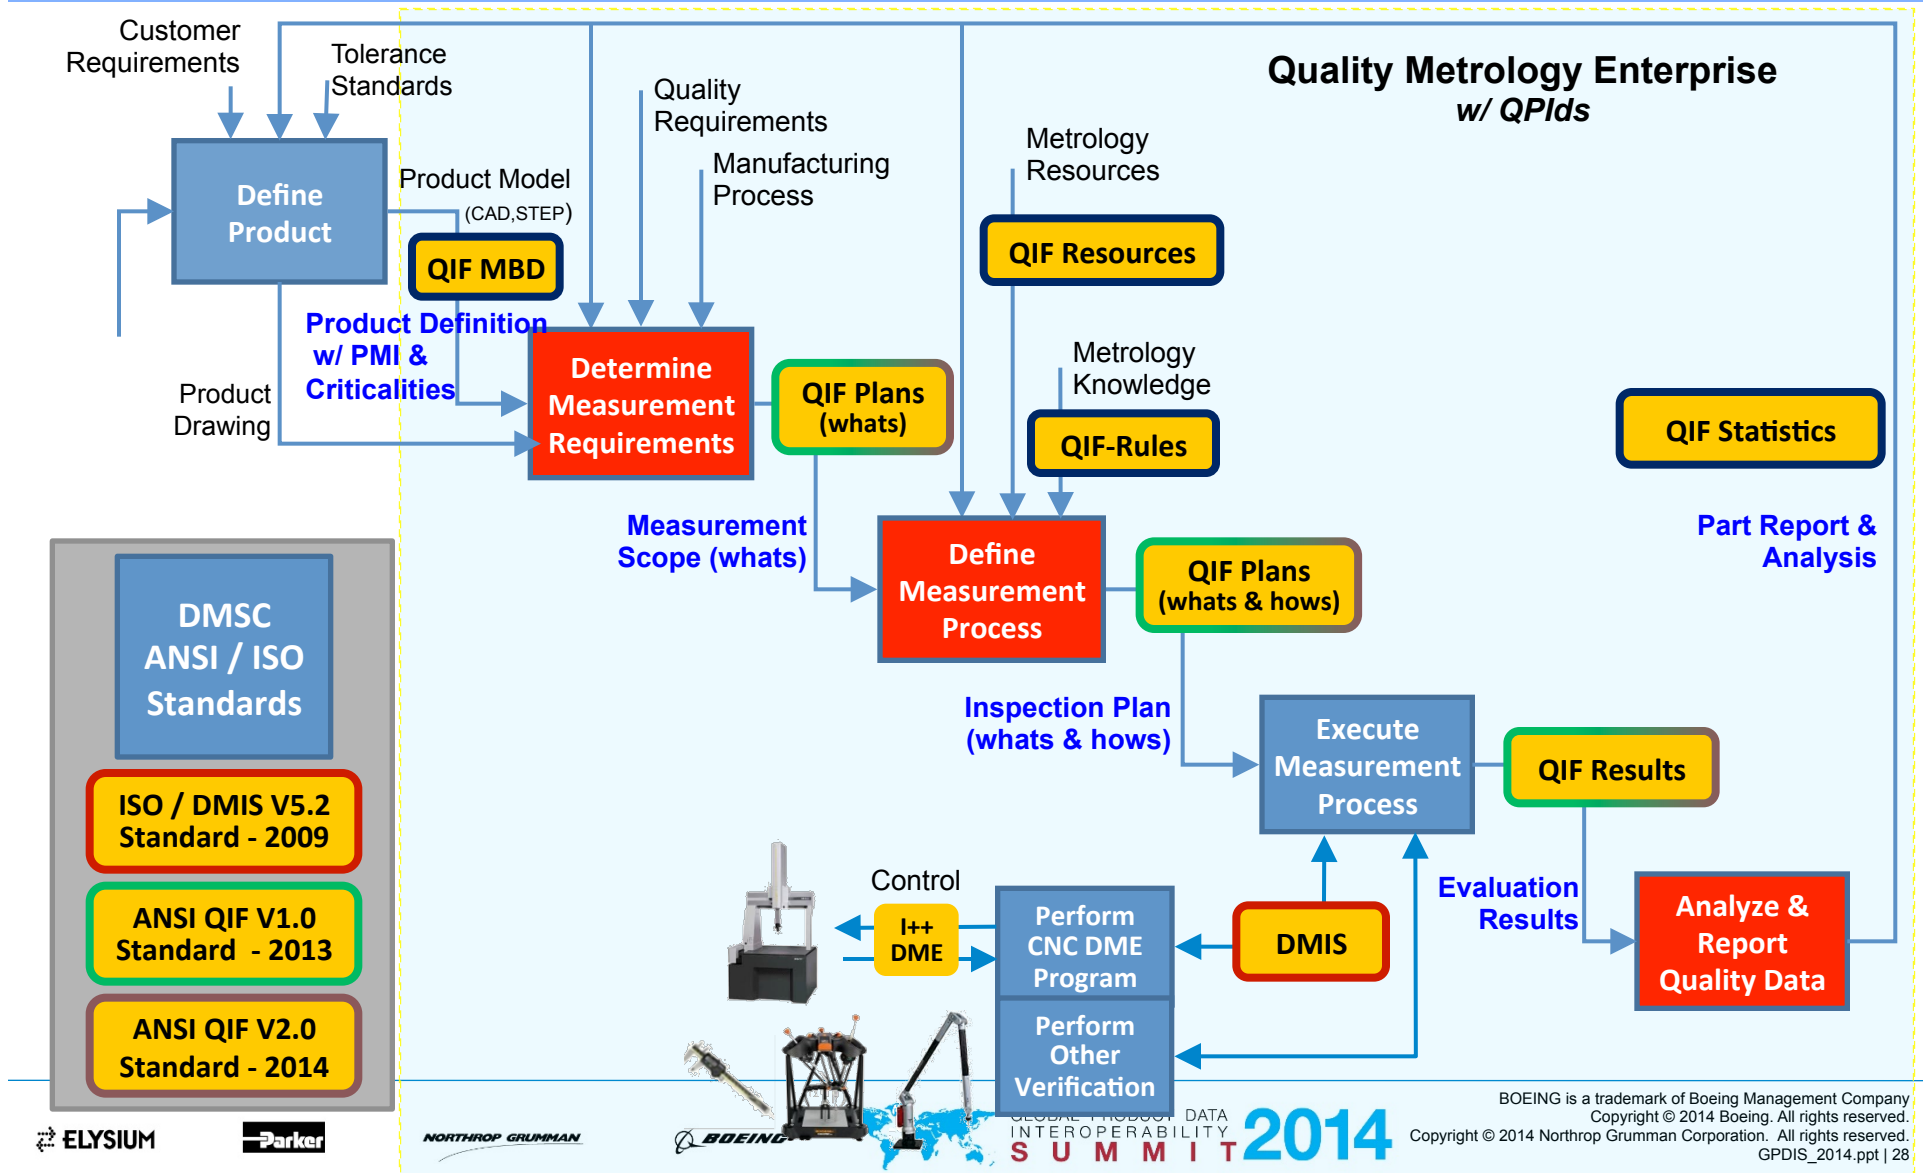

- Consume QIF 2D file and/or 2D blueprint.
- Produce QIF Inspection requirements
- Acquire data from any Measurement Resource and generate QIF reporting

Automatically extracting manufacturing and inspection requirements from 3D file and 2D blueprint and convert it automatically to inspection plan, inspection CMM program and reporting.

QIF v2.0 – PAS TECHNOLOGY – PAS CMM & Inspection Manager

Global Product Data Interoperability Summit | 2014

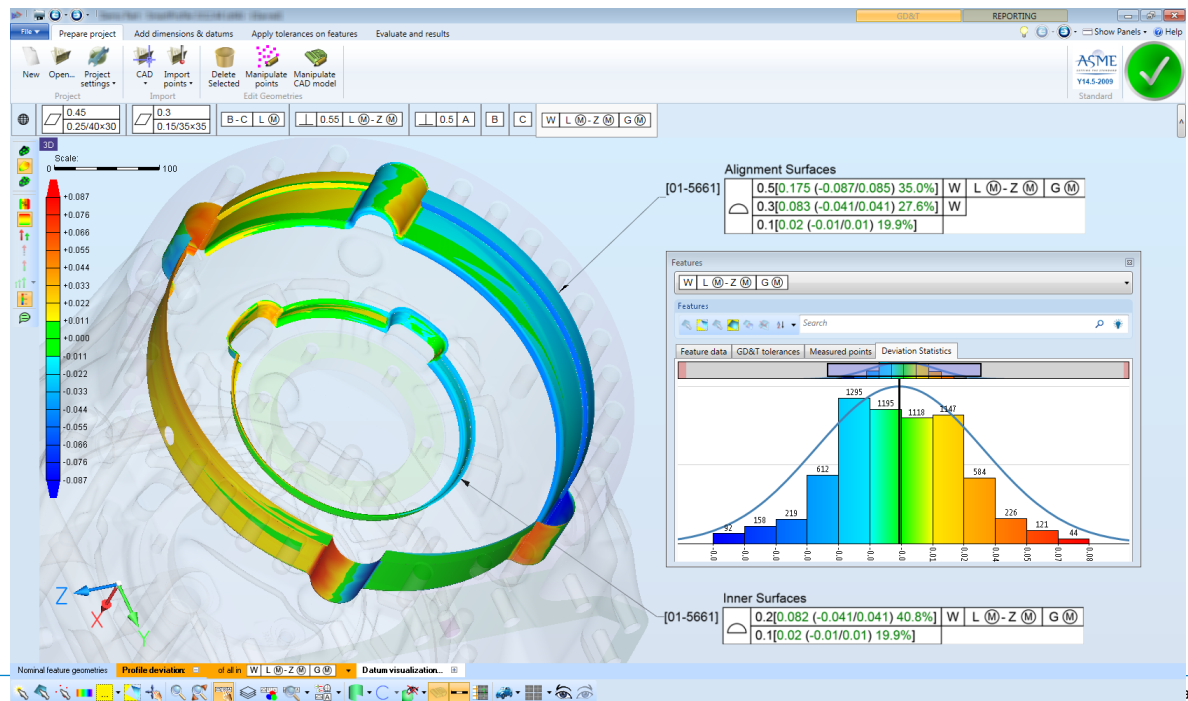

Kotem SmartProfile

Global Product Data Interoperability Summit | 2014

- **Consume** any CAD model (**QIF MBD**)
- **Consume** measured point data (**QIF Results**)
- **Produce** QIF measurement results for relevant characteristics (**QIF Results**)

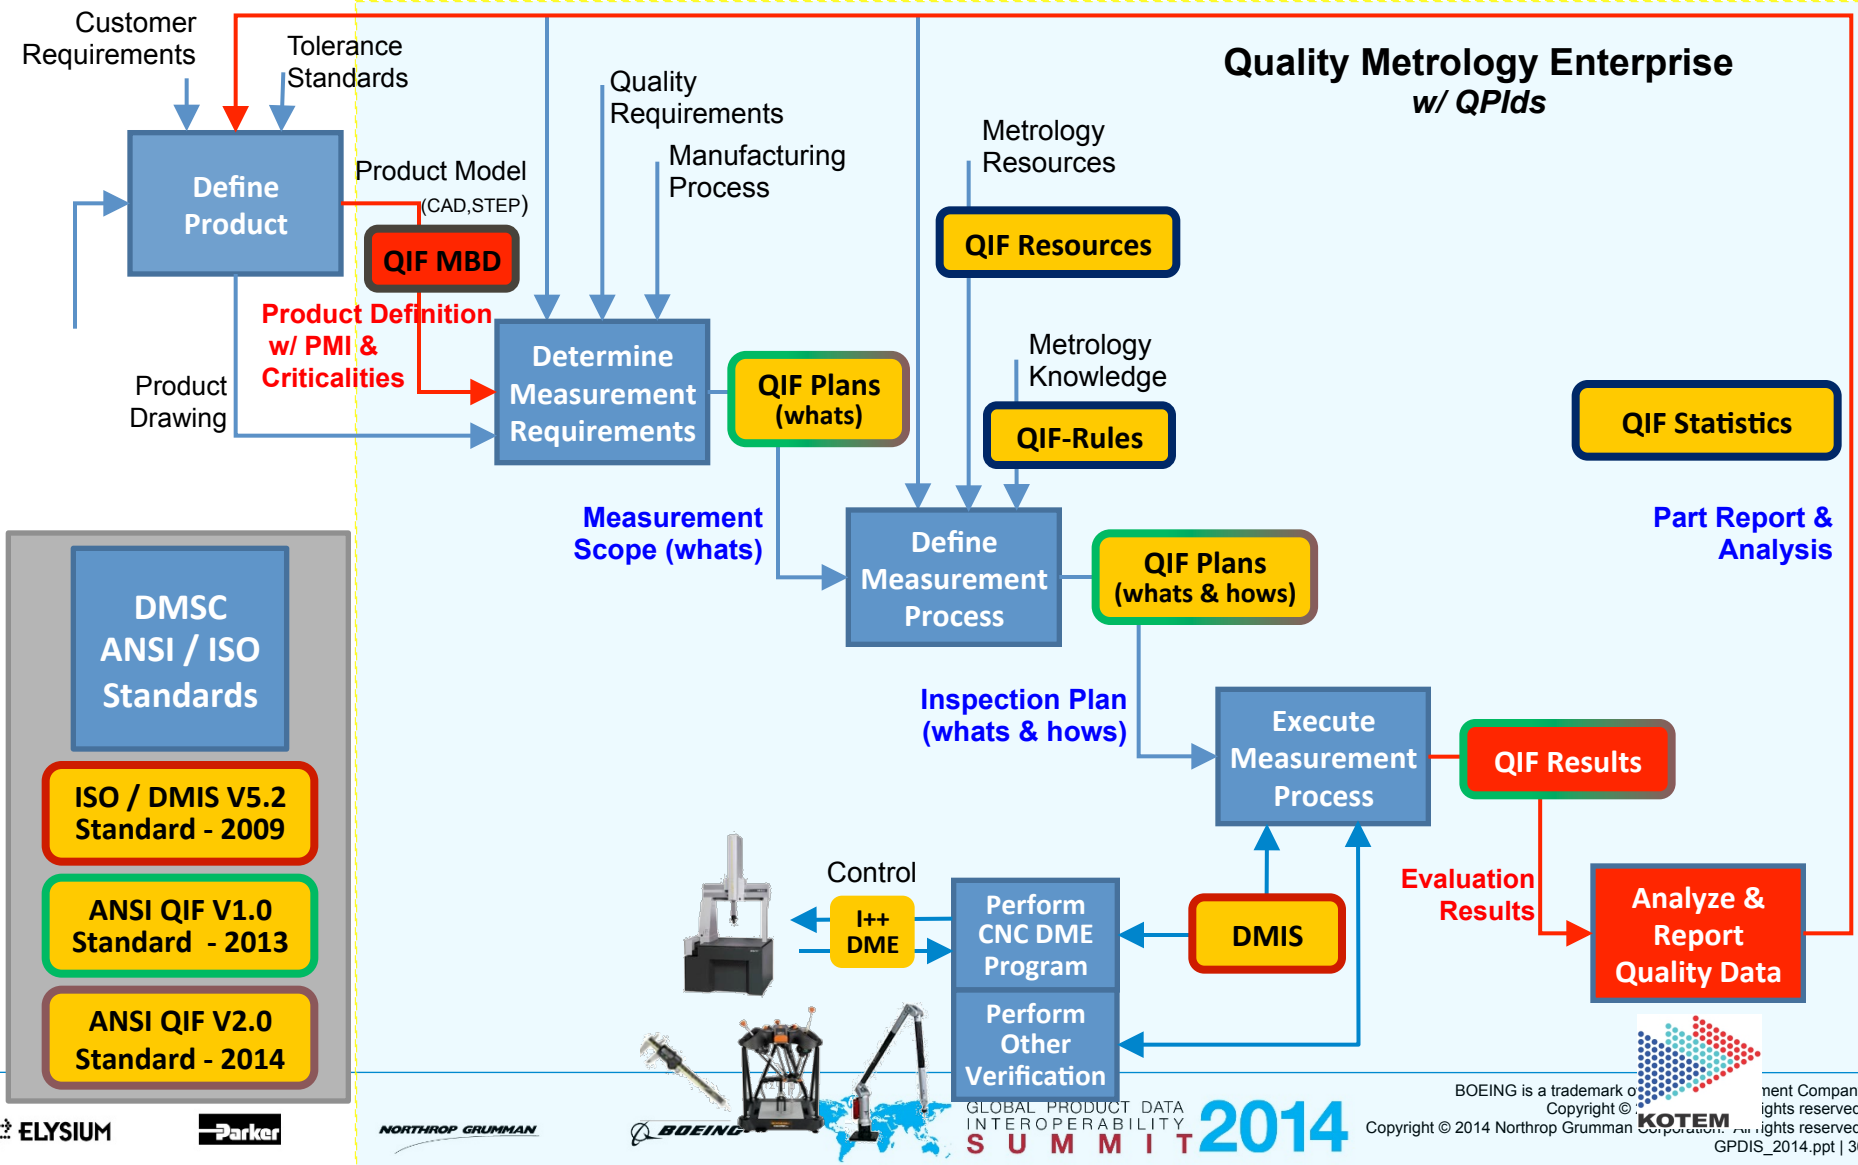

Evaluates part conformance to all geometrical dimensioning and tolerancing (GD&T) callouts using point data collected on any measurement system.

QIF v2.0 – Kotem SmartProfile

Global Product Data Interoperability Summit | 2014

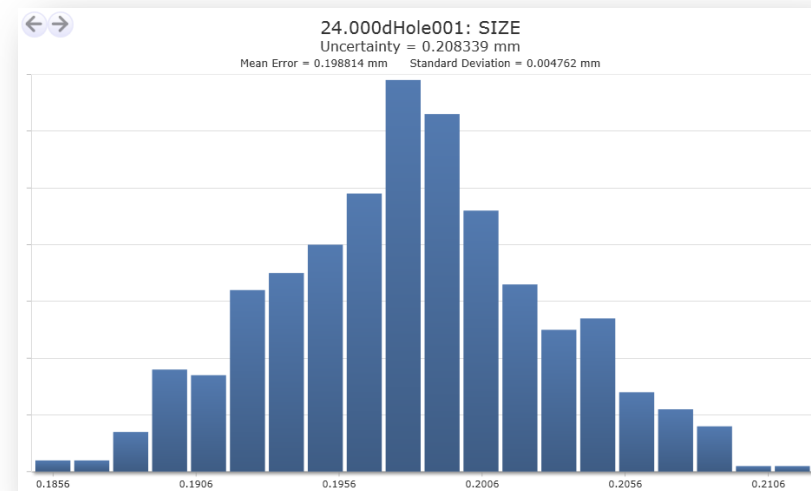

Metrosage Pundit CMM

Global Product Data Interoperability Summit | 2014

- Calculate ***task-specific measurement uncertainty*** for all characteristics on part
- Knowledge of measurement uncertainty required to conform to international traceability requirements and to optimize measurement strategy
- Required information:
 - Feature geometry
 - Bill of characteristics
 - Point sampling locations
 - Measurement equipment information
 - Known manufacturing errors

 PUNDITCMM

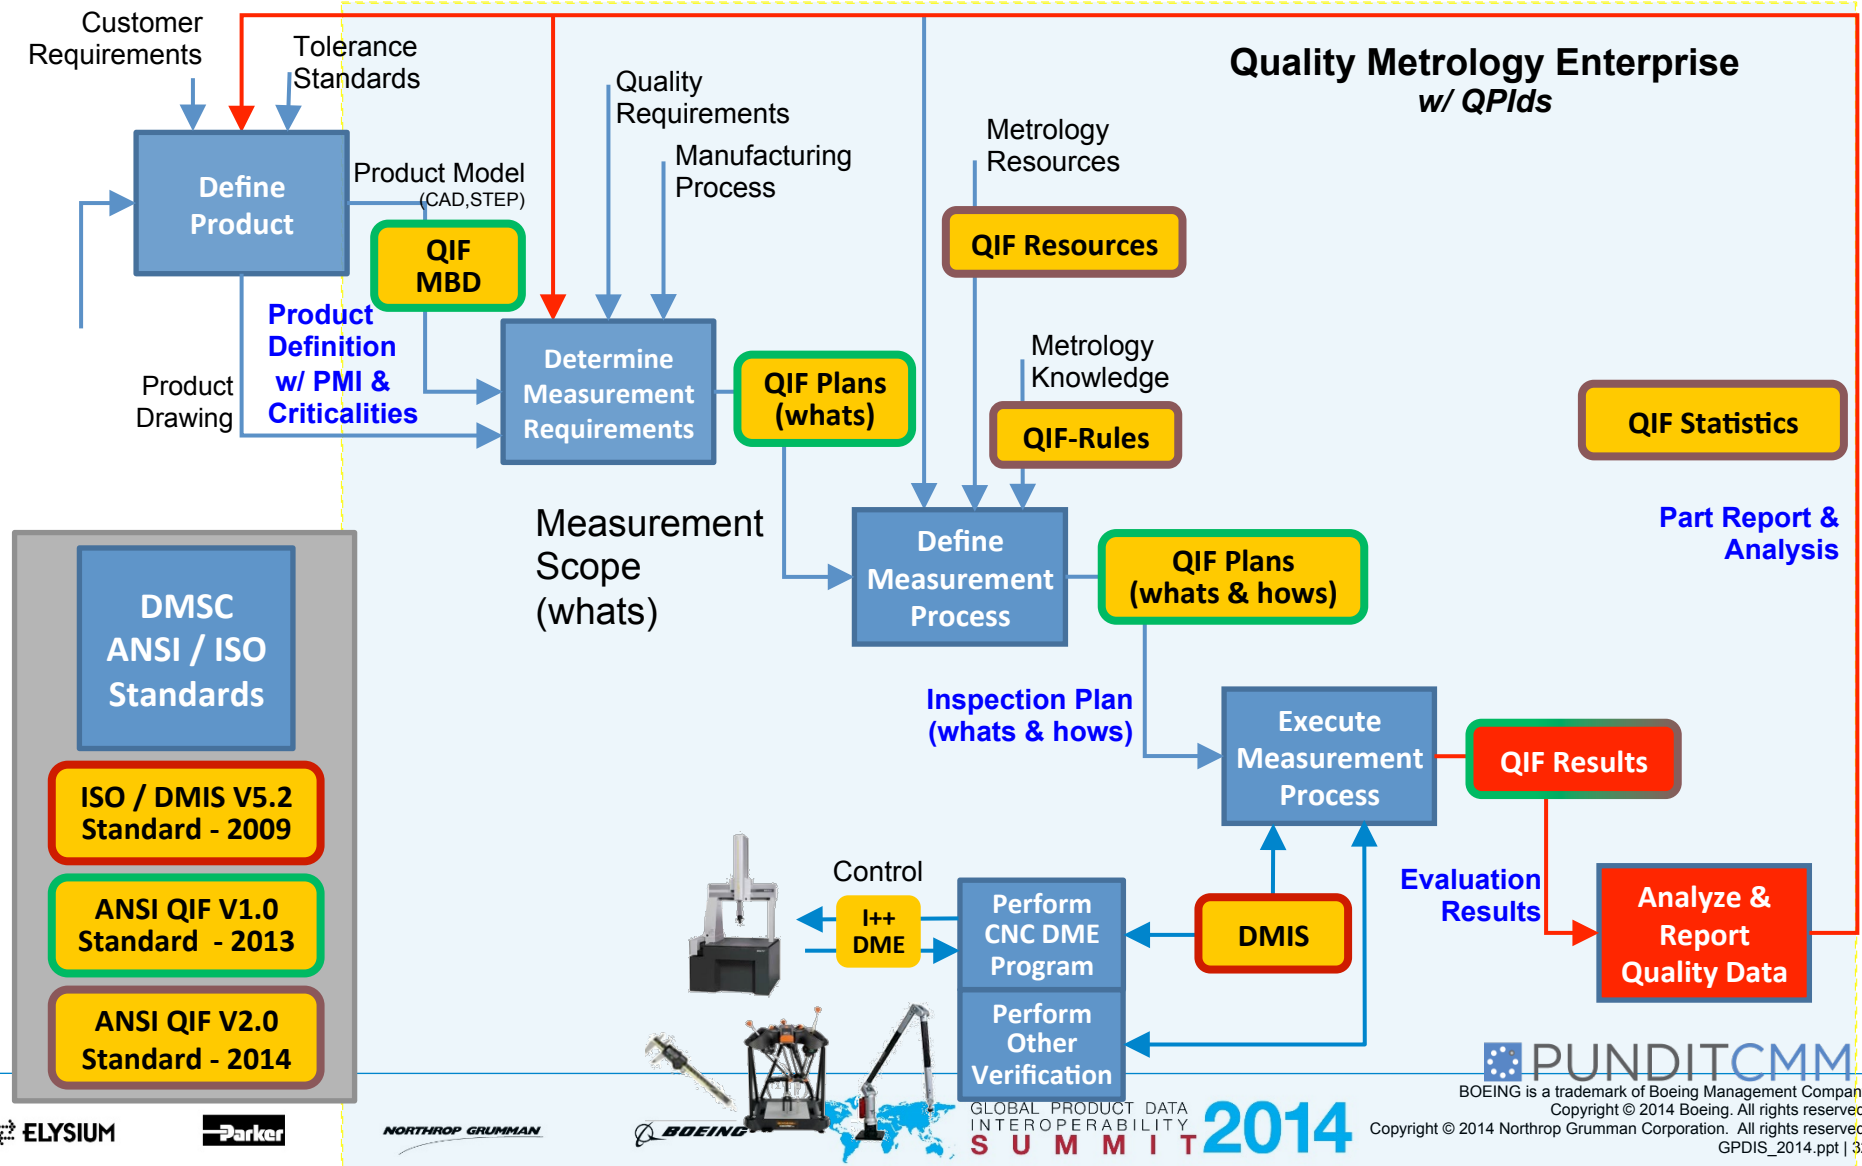

Measurement Uncertainty

QIF v2.0 Metrosage Pundit CMM

Global Product Data Interoperability Summit | 2014

Quality Metrology Enterprise w/ QPIs

Company - Product

Global Product Data Interoperability Summit | 2014

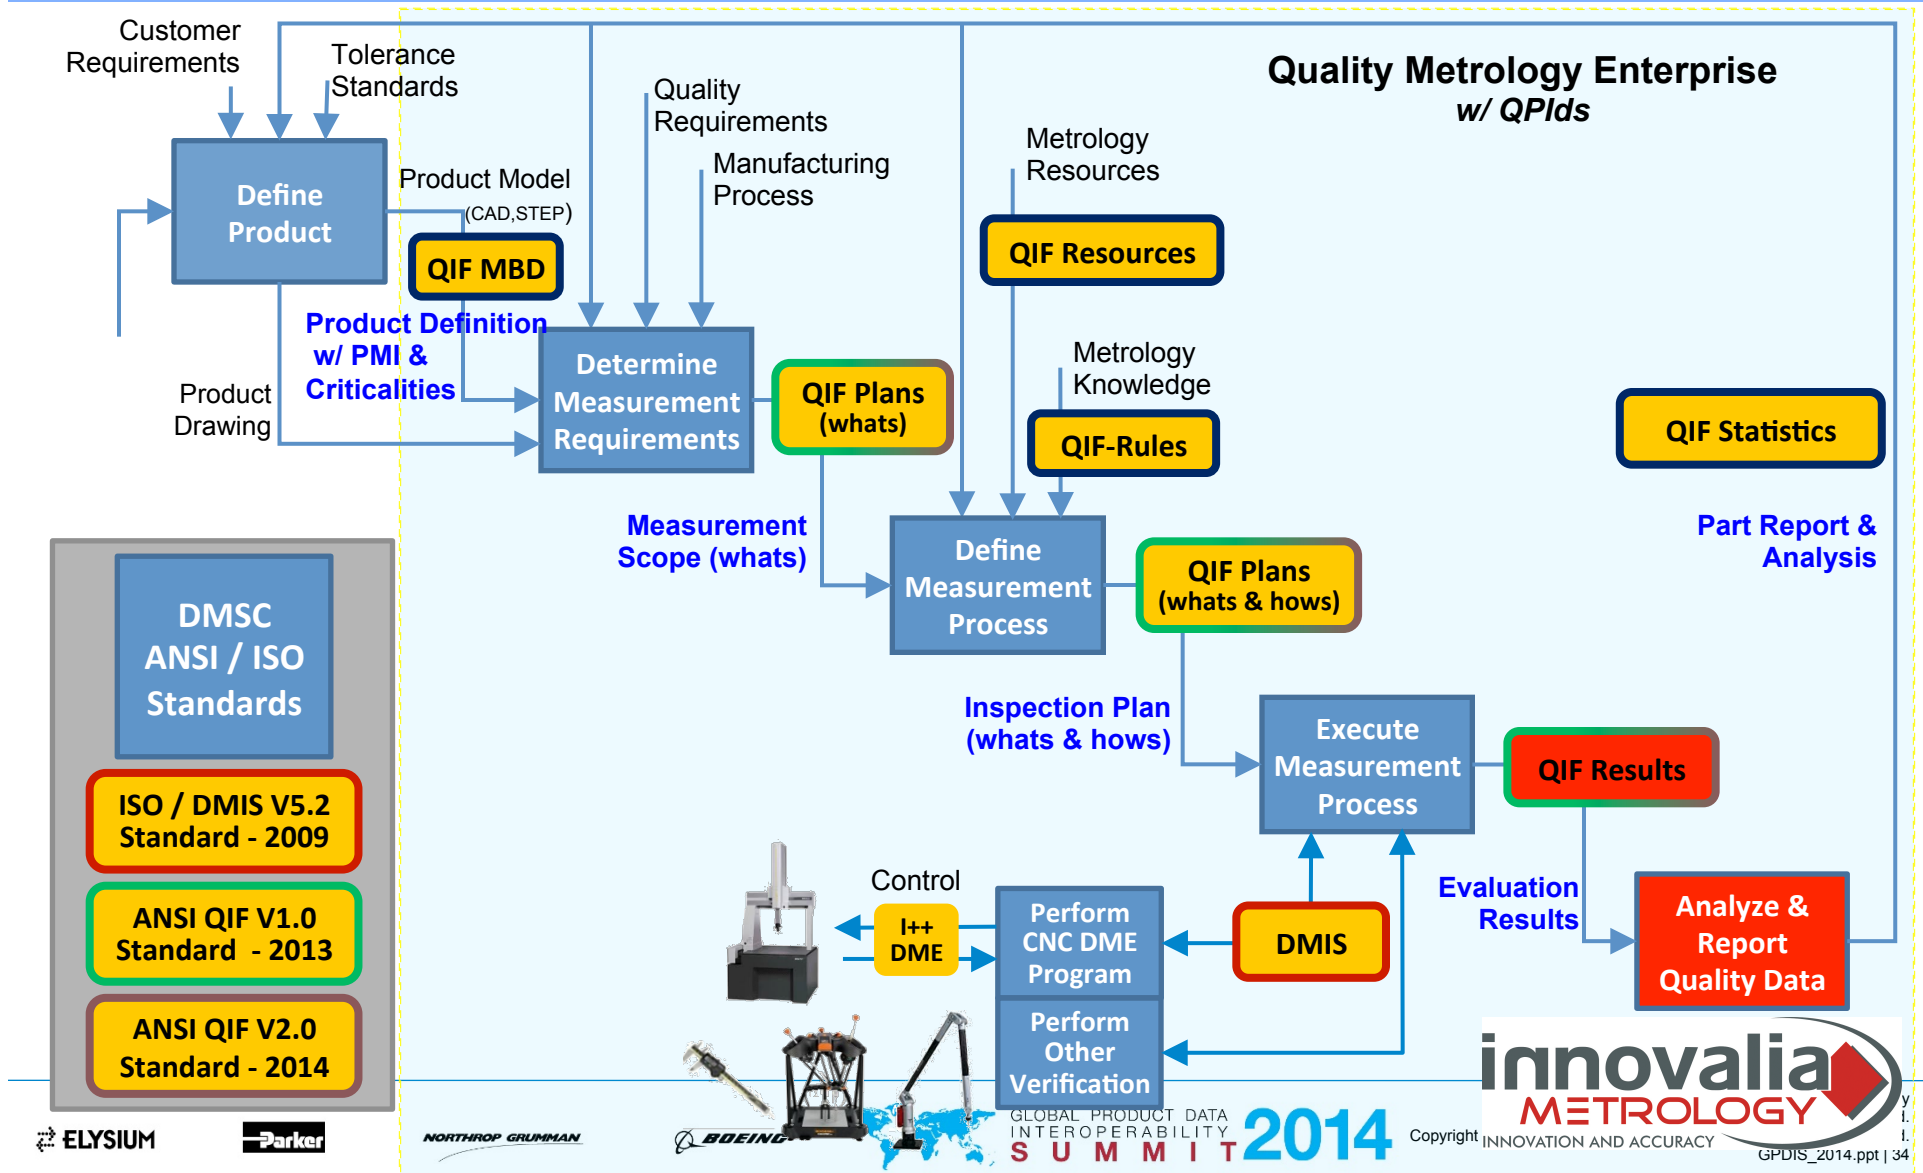

- Multisensor measurement platform
- GD&T Point cloud analysis
- Produce/Import QIF results

QIF v2.0 – Innovalia M3

Global Product Data Interoperability Summit | 2014

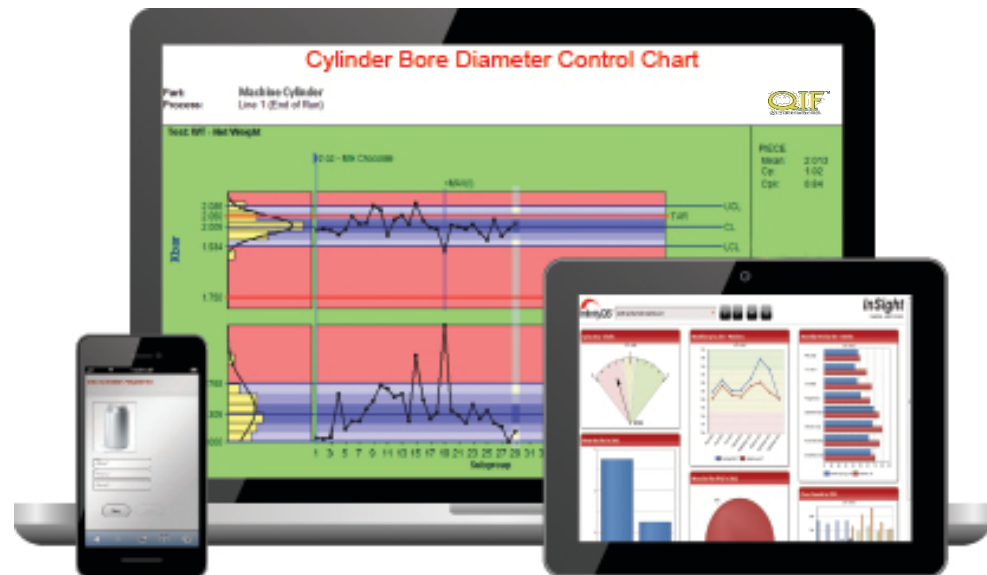

InfinityQS ProFicient

Global Product Data Interoperability Summit | 2014

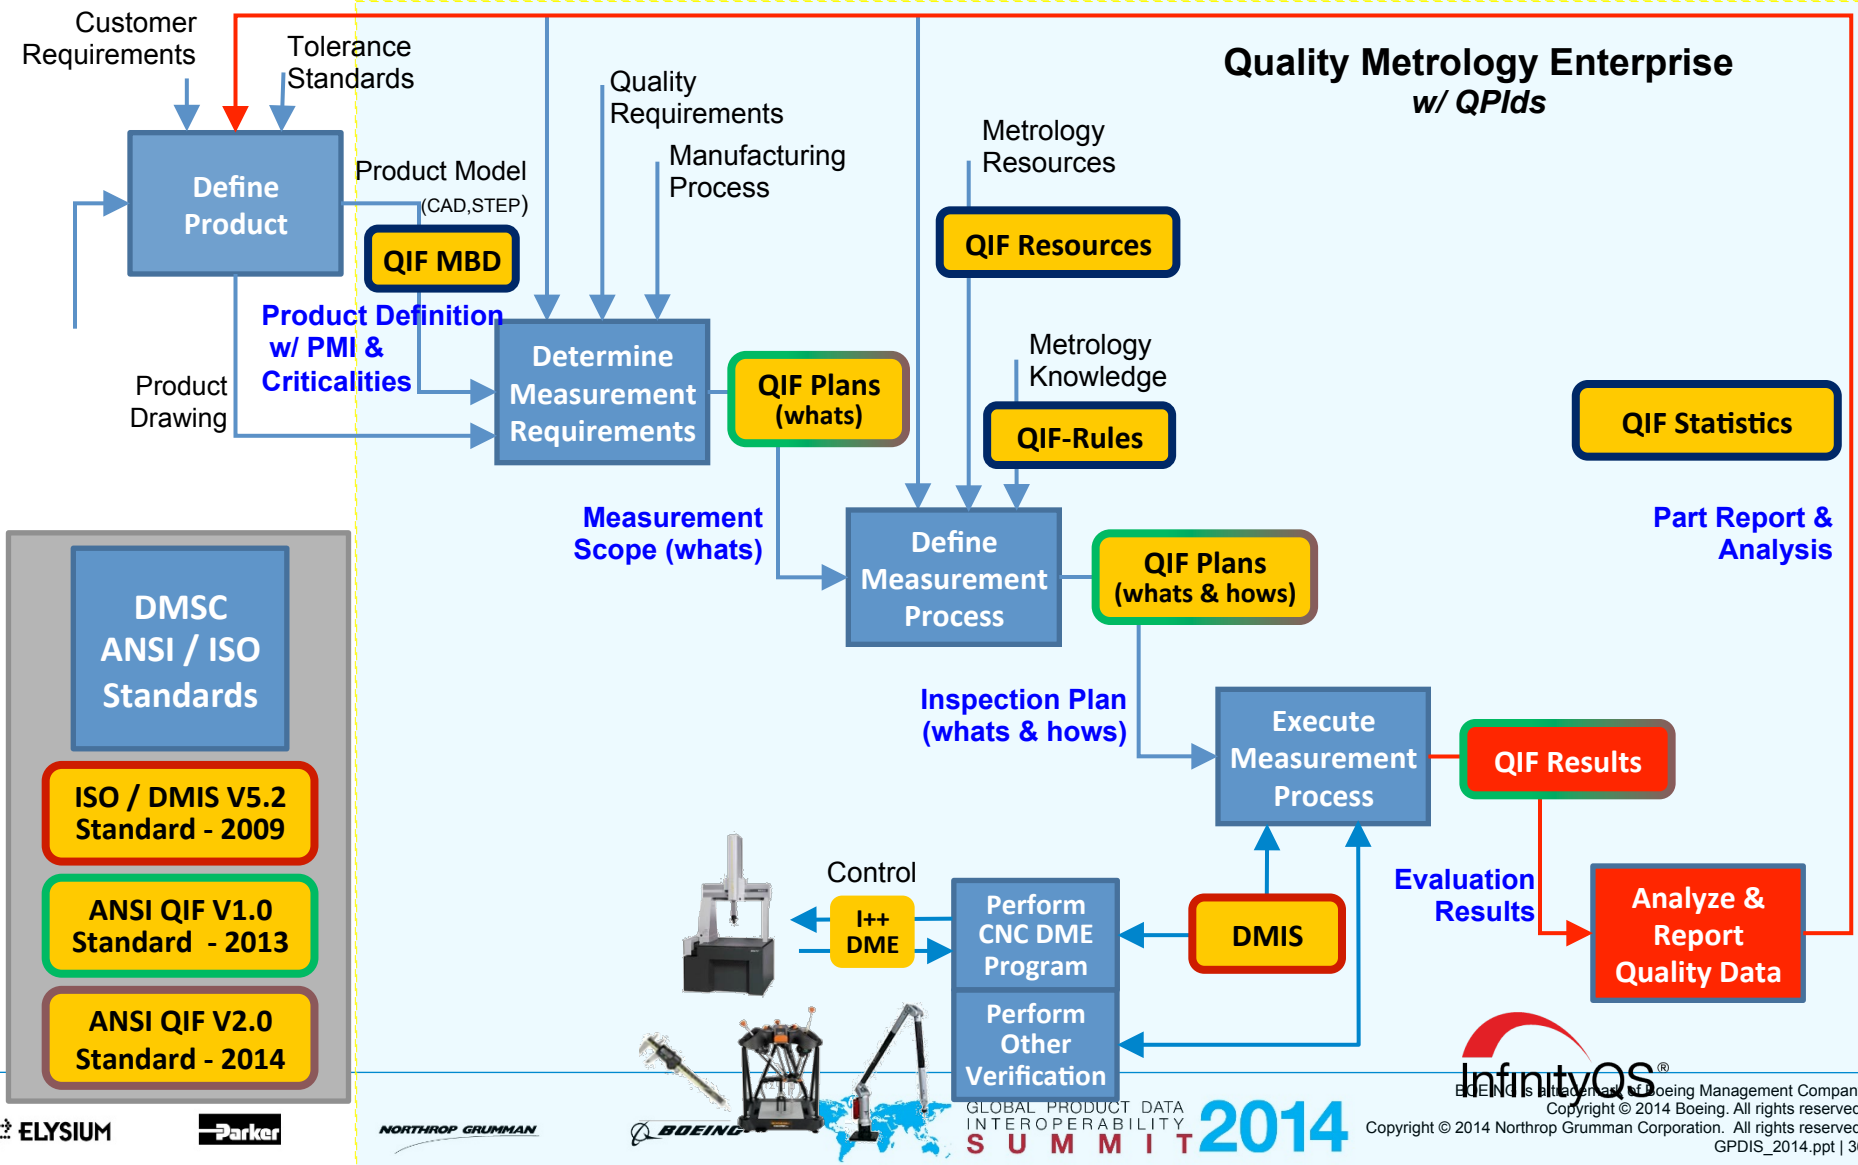

- Consume QIF Results
- Reporting and analysis of results
- Easily acquire data from virtually any data source

ProFicient is a proven quality software platform that gives manufacturers a complete, real-time view of manufacturing operations, allowing them to control quality at each point of the product lifecycle.

QIF v2.0 – InfinityQS ProFicient

Global Product Data Interoperability Summit | 2014

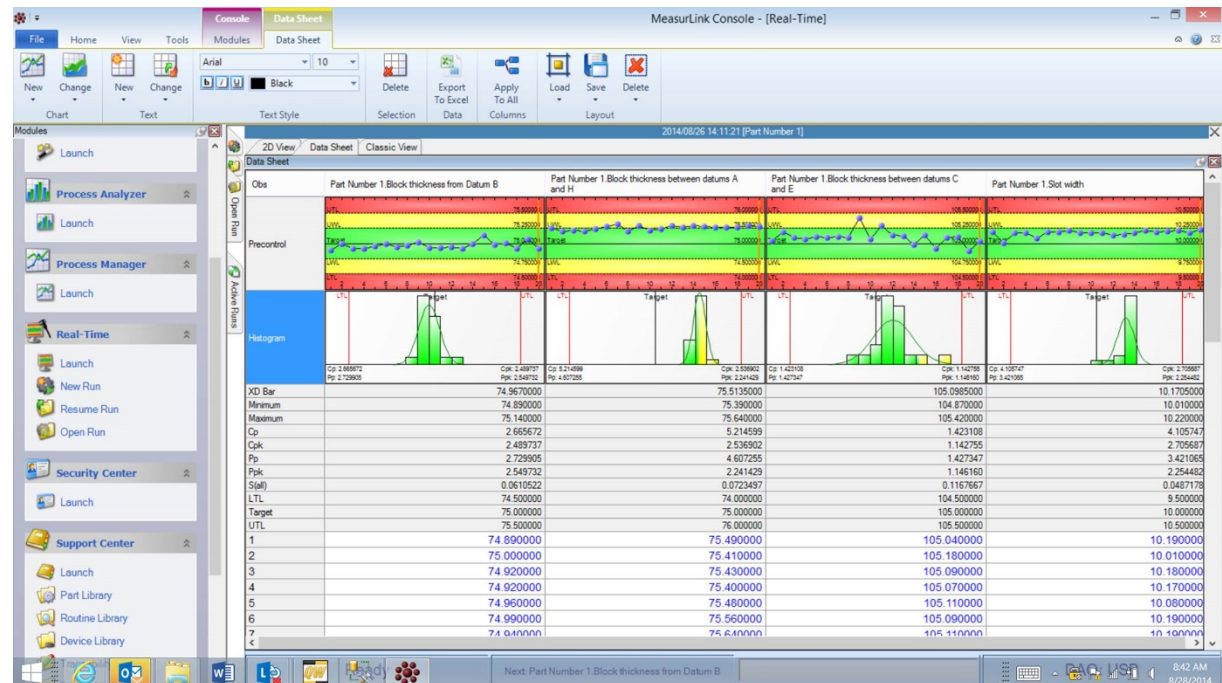

Mitutoyo MeasurLink

Global Product Data Interoperability Summit | 2014

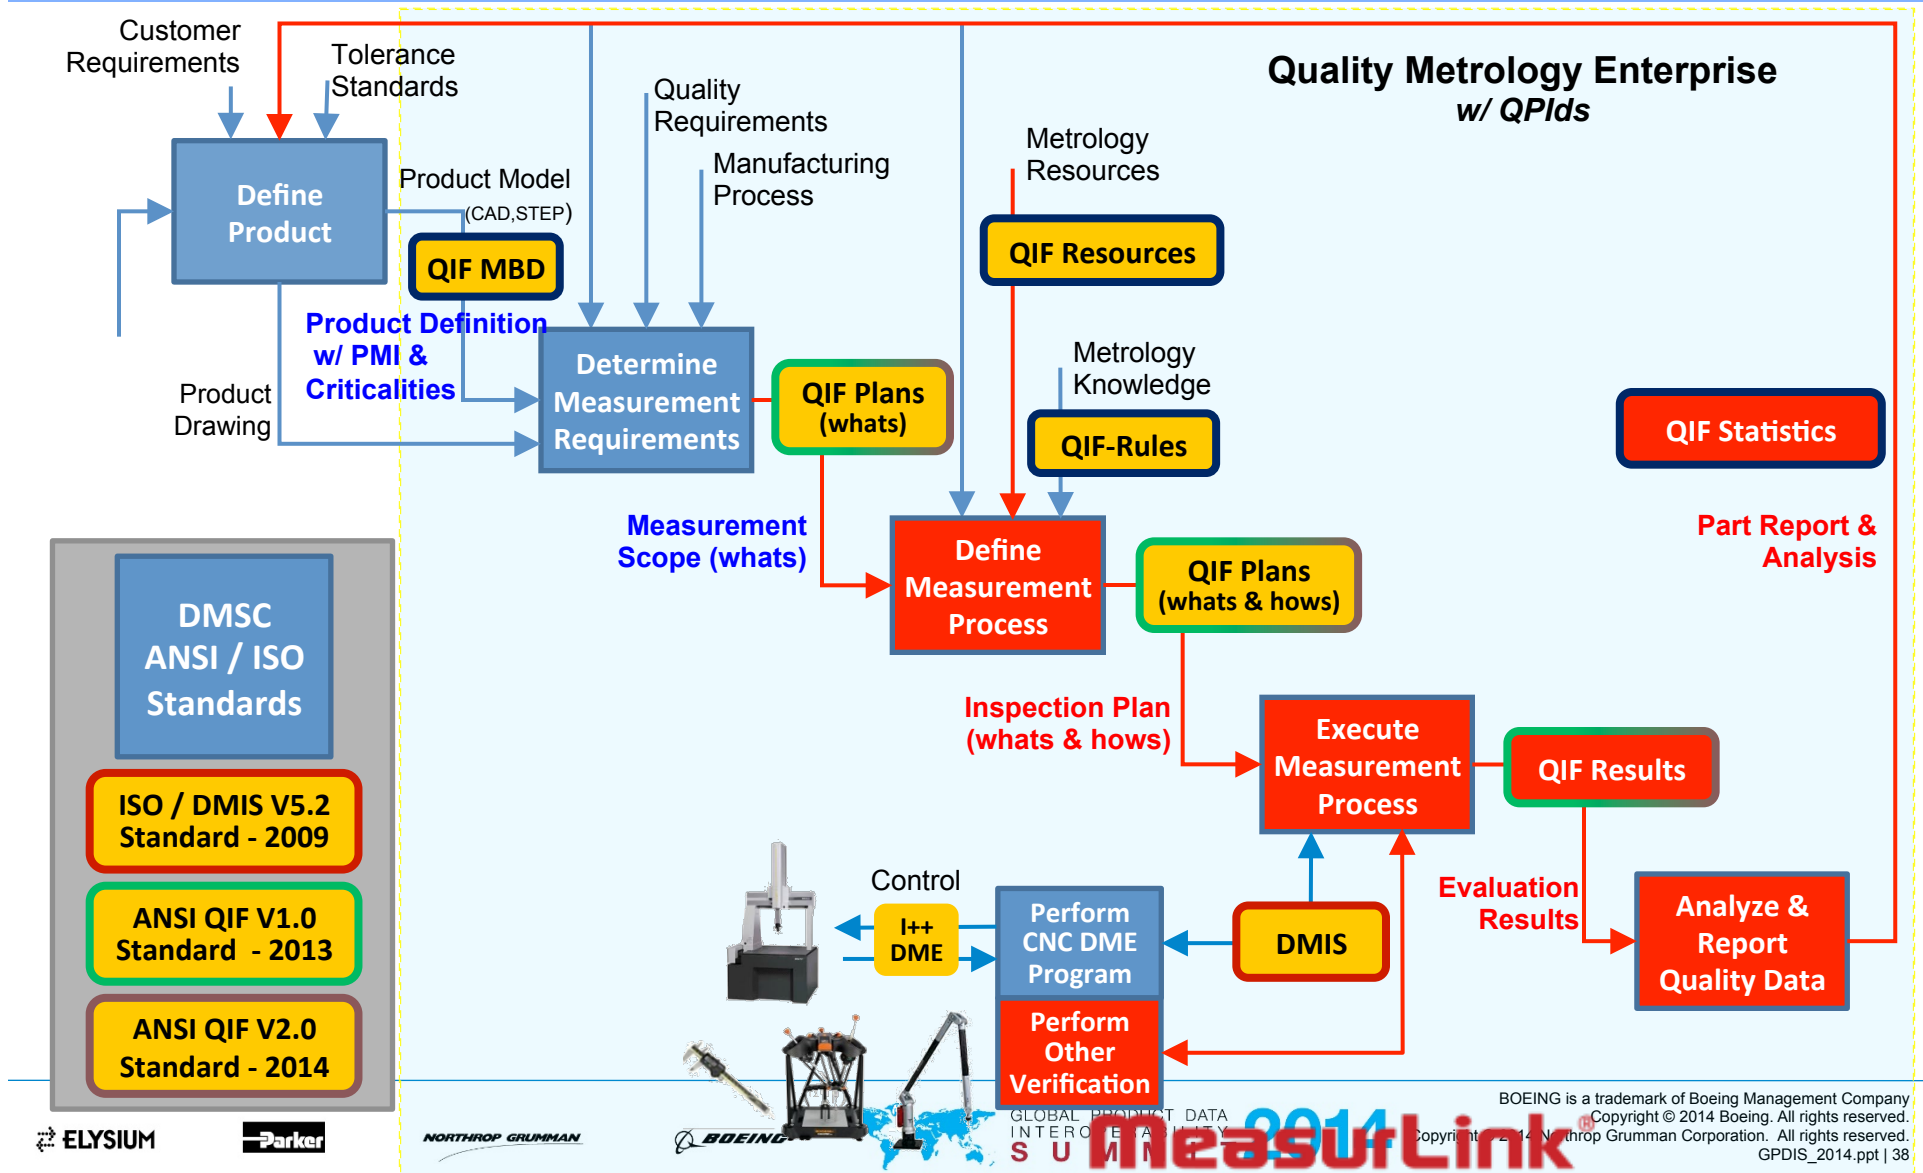

Enterprise Data Collection, Management and Analysis for Statistical Process Control and Measurement Systems Analysis

- Consume QIF Measurement Plans
- Acquire data from any Measurement Resource
- Produce QIF Measurement Results and Statistics

QIF v2.0 – Mitutoyo MeasurLink

Global Product Data Interoperability Summit | 2014

NIST – Smart Manufacturing Operations Planning and Control Program

Global Product Data Interoperability Summit | 2014

NIST is a member of the DMSC and participates in all aspects of the QIF standard development efforts:

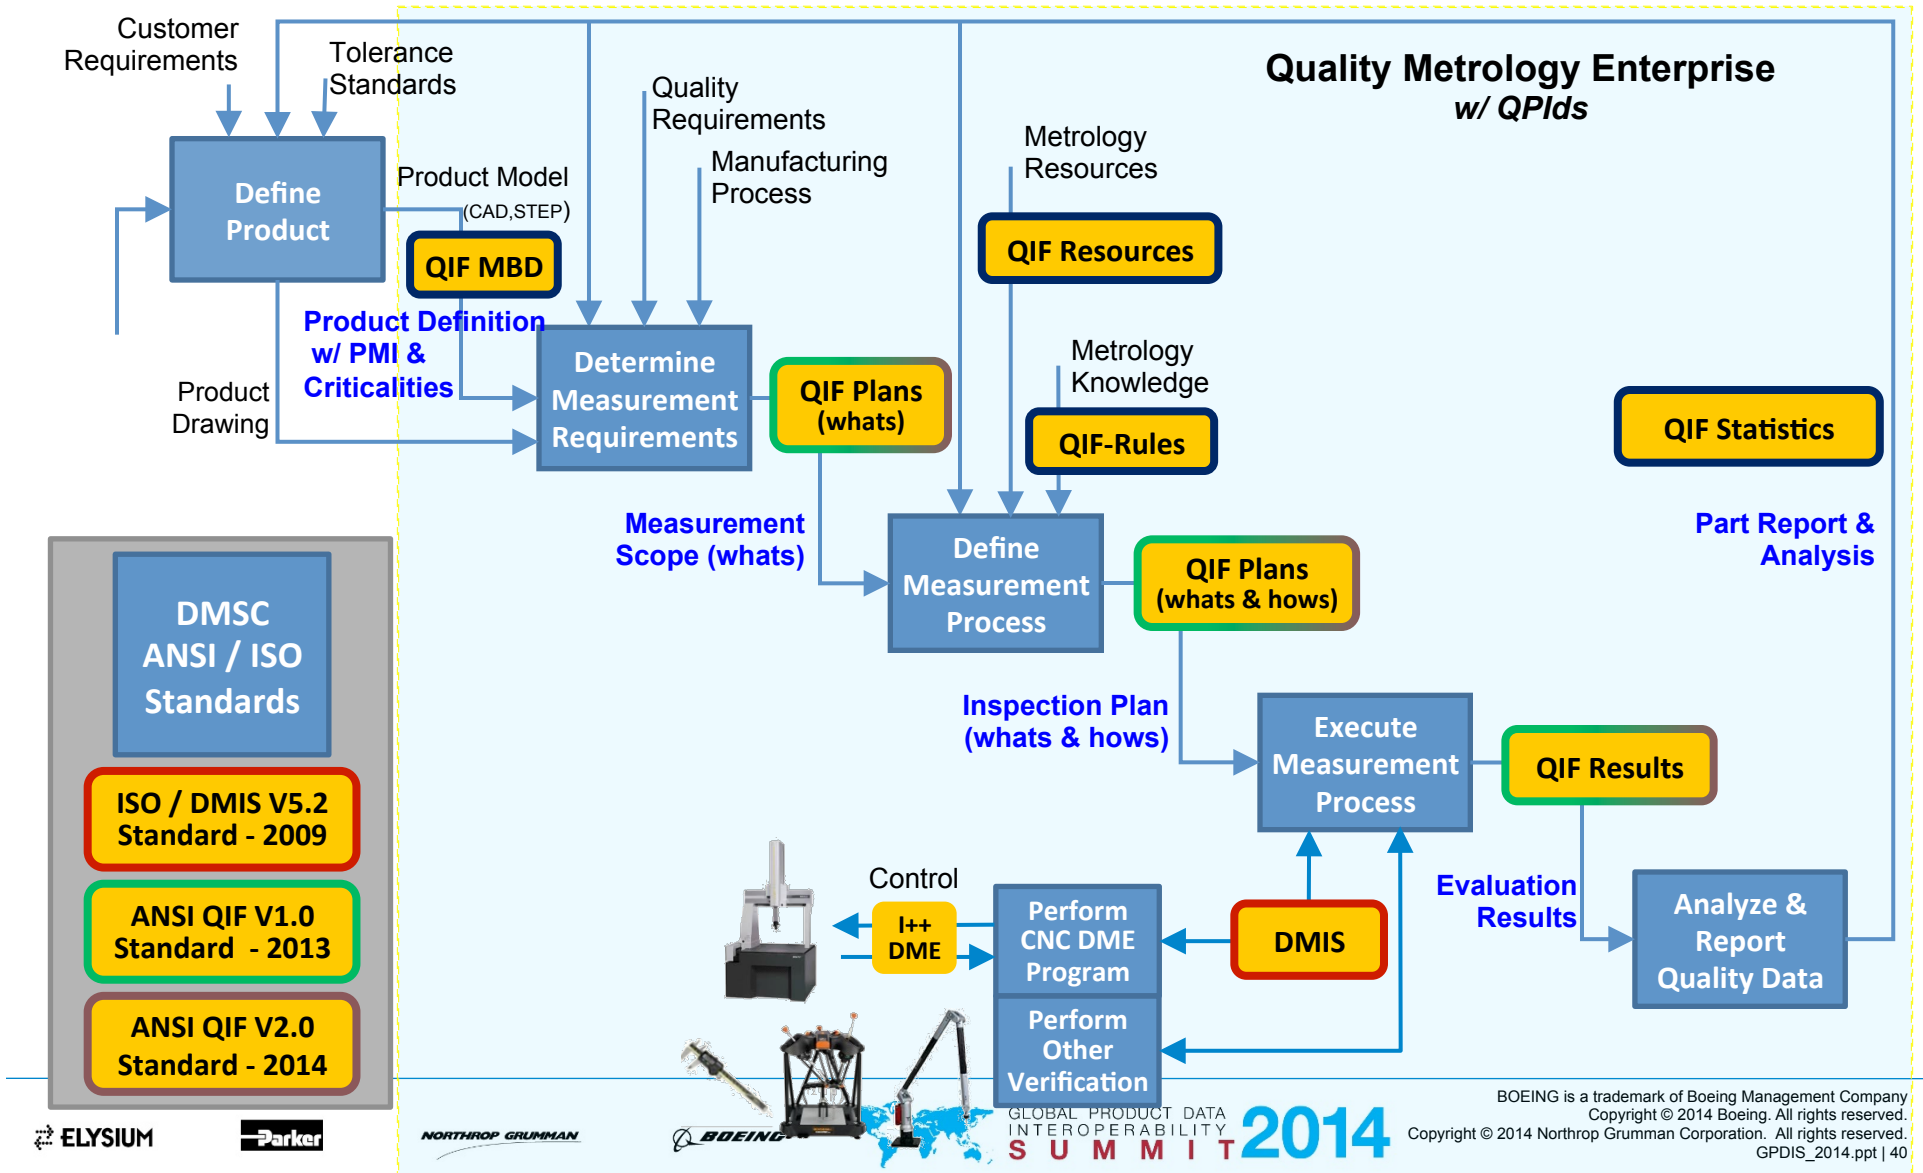

- Maintains the XML schema files
- Prepares data dictionaries
- Leads two subgroups
- Oversees preparation of testing artifacts and provides test files
- Collaborates with industry and establishes test bed to support verification tests and demos
- Researches its integration in the manufacturing enterprise
- Ensures its overall high quality

NIST
**National Institute of
Standards and Technology**
U.S. Department of Commerce

QIF v2.0 – NIST Smart Manufacturing Operations Planning and Control Program

Global Product Data Interoperability Summit | 2014

- A not-for-profit, cooperative sponsorship organization with **members Large and Small**
- Focused on or relating to **Digital Dimensional Metrology**
- Dedicated to identifying, promoting, fostering, and encouraging the **Development and Interoperability of Standards** that benefit the dimensional metrology community.
- An **ANSI accredited Standards Making organization** with **ISO fast-track** international presence
- Brought you the **DMIS ISO Standard**, the most influential standard in the industry
- Ensure that **metrology standards fill gaps** and do not overlap

Participants

Dimensional Metrology
Standards Consortium

Global Product Data Interoperability Summit | 2014

• DMSC Consortia Members

- Applied Automation Technologies
- Capvidia
- Deere & Company
- Hexagon Metrology
- Honeywell FM&T
- Lockheed Martin
- Origin International, Inc.
- MetroSage LLC
- Metrology Integrators
- Mitutoyo America Corp
- Nikon Metrology
- NIST
- PAS Technology

• Working Groups

Open to all who have a Direct and Material Interest

- Rolls Royce
- Pratt Whitney
- GE Aviation
- Boeing
- DISCUS Software
- Zeiss
- Renishaw
- Siemens PLM Software
- PTC
- Validation Technologies
- IPI Solutions

We value your Involvement

Global Product Data Interoperability Summit | 2014

- **Encourage**
 - Your Favorite Vendor to Investigate the Benefits of QIF
 - Your Metrology Department to Plan for the Use of the QIF
 - Join us directly, we would value your involvement!
- **Collaborative Partnership**
- **Membership (www.DMSC-Inc.com)**
 - bsquire@dmsc-inc.com to Request an Application
- **QIF Involvement (www.QIFStandards.com)**
 - QIF Plans Working Group
 - QIF Results Working Group
 - QIF MBD (PDPMI) Working Group
 - QIF Resources Working Group
 - QIF Rules Working Group
 - QIF Statistics Working Group
