John Mimms
Track Leader
Northrop Grumman Corp

# Acknowledgements

- **Hari Vijay – Siemens PLM**
- **Jon Jarrett – ATK Aerospace**
- **Jonathan Girroir – Tech Soft 3D**
- **John Getty – Northrop Gruman**
- **Rob McAveney – Aras**
- **Keane Barthenheier – Boeing**
- **Dr. Roland Maranzana – 3D Semantix**
- **Arnd Feye – Transcat**
- **Kris Harsha – Northrop Grumman**

# Common themes / future topics

- **Export compliance – sharing data worldwide**
- **Using data from legacy systems**
- **Sharing data world wide**
- **Need to quickly analyze big data**
- **Digital thread throughout the product lifecycle**
- **Integrating CAD and 3D PDF**
- **JT should be pervasive throughout product lifecycle**
- **Strengths and weaknesses of different formats**
- **Using PLM to manage software, documentation, etc…**
- **Quickly finding parts for reuse, repurposing or information**
