Digital Transformation

Digital Backbone enables Digital Transformation

eQube[®] Digital Backbone - Actionable Insight

Integrated Systems for seamless data & information flow

On-demand Analytics / Artificial Intelligence / Machine Learning / Augmented Analytics

eQube® platform forms a Connected Network of integrated data, applications, and devices that puts the power of analytics in the hands of end-users.

any data – at any speed, any application, any API, any format, any device

The logo for eQube, featuring a stylized '@' symbol in blue and red, followed by the word 'eQube' in a colorful, multi-colored font, and a small orange cube icon with a registered trademark symbol (®) to its right.

eQube[®] a DaaS platform

It provides holistic capabilities to establish a robust, secure, resilient, and scalable infrastructure for:

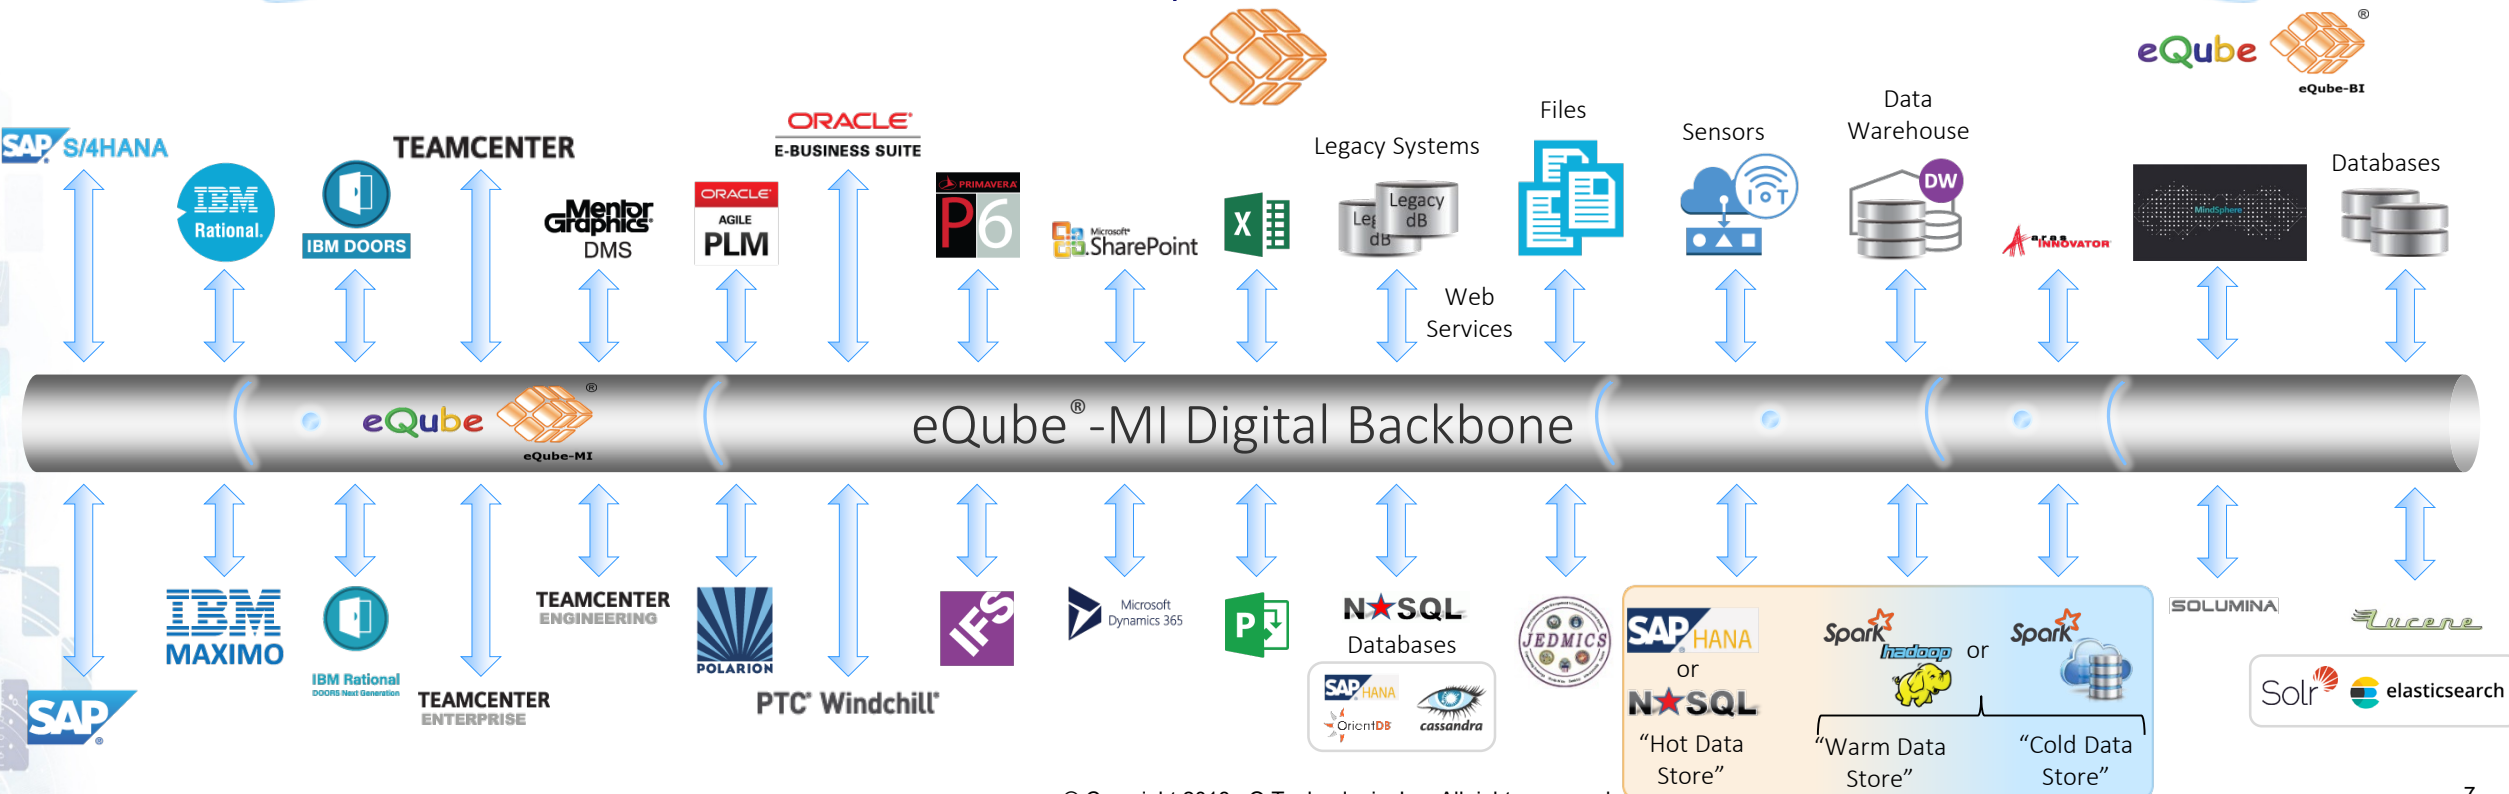

- Developing end-user centric 'for-purpose' apps
 - Data from multiple systems aggregated or federated and presented in-context of a user carrying out business operations.
- Integrating data, systems (COTS software, legacy systems, data lakes, data warehouses, etc.), and devices
- Orchestrating enterprise-wide business processes across systems and networks
- Federating data in context of end-user's actions
- Secure collaboration across networks, partners, and customers
- Responsibly retiring legacy systems without system outages or blackouts
- Providing analytics / BI (A/BI) capabilities for on-demand decision-making honoring underlying applications' security rules
